### Bucharest Falls to Germans

#### NEW LEADER OF BRITISH WILL DRIVE ARMY HARD, VIEW

England Expected to Turn An Absolutely Deaf Ear to Peace Proposals

#### BONAR-LAW DECLINES TO BE MINISTRY HEAD

Lord Northcliffe Sees Great Future For Britain In New Line-up

LONDON, Dec. 6.—Following the resignation of Herbert H. Asquith as premier, announcement of the appointment of David Lloyd-George to head the new ministry was today momentarily expected. Lloyd-George was summoned by the King immediately after the Unionist leader, Andrew Bonar-Law, declined the premiership. The outstanding construction to be placed on the selection of Lloyd-George is that England will turn an absolutely deaf ear on all peace proposals. He can be counted upon to push the actual fighting by the British troops with the same driving force and vigor that has characterized his organization and development of the British munitions output.

Asquith's fall is due to public opinion and not intrigue.

Lloyd-George's uncompromising attitude of the past few days really represented the country-wide conviction that a new deal was necessary if the war was to be continued intellectually, energetically and efficiently. It is believed today that Asquith may become Lord Chancellor.

#### Lloyd-George Lauded By Northcliffe

LONDON, Dec. 6.—Lord Northcliffe, England's greatest publisher, and largely responsible for the cabinet shake-up today gave the following to the United Press:

BY LORD NORTHCLIFFE  
(Copyright 1916 by United Press)  
(Copyright at the Department of Agriculture, Canada.)

Lloyd-George has given a knockout to the gang of aged or inept mediocrities who have prevented England from exerting her full force in the war. Whatever happens, these malevolent cannot assemble again. What ever government arises cannot but be an immense improvement on that that has disappeared.

Lloyd-George is one of the few British statesmen understanding America. I look for good relations between Britain and the republic as a result of his forceful action of yesterday.

#### MONROVIA COLLECTOR OF TAXES WINS RACE WITH SANTA CLAUS

MONROVIA, Dec. 6.—The Tax Collector beat Santa Claus in a close race here when the City Council, after considerable debate decided that they have no power to extend the time of collecting municipal taxes, which fall due on Christmas Day. The action of the councilmen was the result of a petition filed by citizens who urged an extension of time for tax payments in order that Monrovia shoppers could spend their tax money for holiday presents.

City Attorney John P. Dunn ruled that as the taxes are collected according to ordinance, only an ordinance can set aside the regular method of handling the tax money, and the new amending ordinance, by state law, must be published and passed thirty days before it can go into effect. This would effectively dispose of a measure which the citizens wished to quash in less than three weeks.

#### CONTINUES PROBE OF NEGRO VOTE FRAUD CHARGES IN ST. LOUIS

ST. LOUIS, Dec. 6.—Attorney General Gregory today is continuing his investigations into charges that negroes were imported into Missouri to vote, and that they were intimidated by the tax money, and the new amending ordinance, by state law, must be published and passed thirty days before it can go into effect. This would effectively dispose of a measure which the citizens wished to quash in less than three weeks.

### City 40 Miles to North of Rumania Capital Also Taken

BERLIN, Dec. 6.—It was today officially reported that Bucharest and Ploesti had been conquered.

A second statement this afternoon announces the capture of Bucharest. Ploesti is on the railroad thirty miles north of Bucharest. The messages do not make clear which of the encircling armies captured the city.

### INVADERS SEIZE VAST STORES IN BALKANS

Relentless Grip of Teutons  
Continues to Tighten;  
More Towns Fall

BERLIN, Dec. 6.—Further large supplies of stores of Rumania have been captured, it was today announced. Von Mackensen is victoriously fighting toward the railroad between Bucharest and Ploesti.

In the Baska valley a raid resulted in the capture of a Rumanian position. The Danube army continues to advance along the Argesul, taking more towns.

In Wallachia the Rumanians are retreating in disorder.

North of Bucharest, wheat consigned to England was captured.

Russian attacks east of the Danube were repulsed.

#### TEUTON GUNS SHATTER FOE IN CARPATHIANS

PETROGRAD, Dec. 6.—The occupancy of the height West of Jablonitz in the wooded Carpathians was today reported. The Russians were forced to retire later by German artillery fire.

Continued German attacks in the Polesht region around Dokaneshiti, were successful.

The piercing of the Rumanian line caused a retirement.

#### SERBS PLUNGE FORWARD FOR NEW GAINS

PARIS, Dec. 6.—The Serbs have captured more positions north of Grunitz, it was today announced.

Teuton attacks from the north caused the Rumanians to retire toward Bucharest.

#### JEALOUSY OF MURGIA CAUSE OF CHIHUAHUA FALL, IS BELIEVED

EL PASO, Dec. 6.—With 5000 men Villa is making his headquarters at San Andres. It is learned that the Villistas still hold Parral. General Trevino was demoted after the re-occupation of Chihuahua City. General Gonzales becoming civil governor and General Murgia commander of the army.

It is expected that Villa will divide the loot taken from Chihuahua City, re-equip his followers and scatter them until he is ready for his next move. It is believed that the jealousy of Murgia caused the fall of Chihuahua City, as he retarded the march of his troops, when Trevino was hard pressed.

#### BOY WHO SWALLOWED MARBLE SAVED FROM OPERATION BY COUGH

BEAUMONT, Dec. 6.—Virgil Fox, the 12-year-old Banning boy, who narrowly escaped strangulation a few days ago, when a marble slipped down his throat and lodged in his windpipe, has recovered as the result of a hard coughing spell, which came just in time to avoid a second surgical operation.

The marble was located by the means of an X-ray examination, and the surgeon and his assistants were ready to begin the operation for the removal of the obstruction. Just before the anesthetic was to be administered, the boy was seized with a violent attack of coughing. At its conclusion he took the marble from his mouth, to the surprise of the surgeons standing with instruments in hand.

### CONGRESS ACTS ON FOOD LAWS TO AWAIT O. K. OF WILSON

Democrats of Both Houses to  
Back Executive In Plan,  
It Is Learned

WASHINGTON, Dec. 6.—A resolution calling for an immediate conference of the Senate Committee on Foreign Relations and the House Foreign Committee, with the President to formulate plans to bring about peace negotiations were today offered in the House by Congressman Lindbergh.

Road Held Not Easy  
While administration officials state that they do not expect an easy road to success of plans for lowering food costs, they say they do not expect serious trouble from those seeking a food embargo and other means of relief.

Special Investigator Anderson, in charge of a nation-wide probe, arrived today and is conferring with heads of the agriculture and commerce departments and also with representatives of the Interstate Commerce Commission. He probably also will see the President.

According to reports now before President Wilson, the Department of Justice is planning to call a special grand jury, probably in Chicago or New York, to attempt to ascertain if the Sherman act has been violated.

WASHINGTON, Dec. 6.—Congressional action on foodstuff regulation will await the recommendation of President Wilson and cabinet, based on reports from departmental investigators.

It was today learned that this plan will be fully supported by Democrats in both Houses.

President Wilson has not decided whether to embody his recommendations into a special message or individually see the leaders of both parties.

#### YANKEE SHIP SUNK BY GERMAN DIVER SANS WARNING, SAYS CREW

NEW YORK, Dec. 6.—American members of the crew of the steamer John Lambert, arriving here today, say that the vessel was shelled and sunk without warning by a German submarine on November 22. The vessel was listed as American. Members of the crew said that the diver fired while they were getting into their boats.

Members of the Lambert's crew declare that the submarine first sent a shot through the bridge and continued firing as the men were getting into the boats. The crew rowed forty miles to the French coast.

#### RIFLED STRONGBOX AT PASADENA RECOVERED

PASADENA, Dec. 6.—The rifled strongbox, stolen recently from the headquarters of the Citizens' Committee, has been recovered with the cash and the most important records missing. Mrs. E. Fluge of No. 444 North Vernon avenue found the box lying by the Salt Lake tracks near Walnut street and returned it to Stanley Newton, acting secretary of the committee. Some of the indorsed checks were left in the box. The envelope with the memorandum of money received and expended is missing. These records were the most valuable in the box.

Mrs. Fluge explained that she found the box several days after it disappeared two weeks ago, but that on account of the political scandal threatened in connection with the theft she was afraid of becoming involved and said nothing. After the flurry had passed she ventured to report her find.

The recovery of the box in no way solves the mystery of the disappearance, since all of the accusations and secret insinuations centered around the missing records. Police and private detectives worked on the case for a week without discovering anything tangible, although one or more persons have been under suspicion.

#### \$100,000,000 WORTH OF BATTLE CRUISER BIDS OPENED TODAY

WASHINGTON, Dec. 6.—Four concerns including the Union Ironworks, San Francisco, today offered to build battle cruisers for their actual cost, plus a percentage of the profit.

### GREAT CAMPAIGN FOR FUND SET GOING BY 7 COMMITTEES

Big Business Men at 9 a. m.  
Today Launch Drive For  
Industry Expansion

They're off! Seven committees of business men of the city started out this morning to solicit subscriptions to the fund which will put Santa Ana on the map as a manufacturing city and make it possible to extend its population beyond its limit as an agricultural city. It was an enthusiastic bunch of men who left the Chamber of Commerce rooms a little after 9 o'clock with the names of men they were to call on and solicit for subscriptions to the industrial expansion fund.

They are keenly awake to the opportunity to be offered through the organization of the fund to increase the activities of their home city and they are in earnest in their endeavor to make this fund as large as possible.

Conditions Attractive  
The conditions upon which subscriptions may be made are very attractive and make it easy for everyone to join in the prosperity movement without subjecting themselves to hardships.

Only 10 per cent of the subscription may be called at one time and no more than two assessments may be made in one year. A \$500 subscription means that only \$50 will have to be paid at one time, with \$100 as the limit for one year.

No money will be called for until a factory has been secured. And a factory is not secured until the manufacturers' committee of the Chamber of Commerce and the trustees of the fund have investigated its merits and approved its proposition. With a fund of \$100,000 which it is hoped to raise—and indications point to the securing of this amount with ease—\$100,000 will be available at one time for an enterprise that might require that amount. To get this sum, the promoters of the enterprise would have to convince the committees that its payroll would amount to \$200,000 in five years.

Good Investment  
Basing the payroll on \$1000 per year per employee would mean that forty people would receive a regular monthly wage from the institution, and on the same wage basis, would distribute about \$3500 every month. To obtain this it would cost the man who subscribes \$500 to the fund an even \$50. It would be a good investment. Every small property owner in the city ought to be willing to give that amount for the location of an industry that would employ that number of people and distribute that amount of money every month. One factory would call for another and many would probably come here, with established factories as the only inducement.

Ten such factories, which the \$100,000 fund would make possible, would add life to the city and would assist in bringing the city to that point where it could take on real metropolitan airs—a city with business volume sufficient to warrant merchants in enlarging their stores and their stocks and inducing business lines that are not represented here.

Prepare for Campaign  
The executive committee yesterday devoted an hour or two of its time to calling upon certain business interests in behalf of the fund, preparatory to launching the campaign this morning. Everywhere they went they met the most courteous reception and their plan was given the hearty approval of men who stand high in financial circles and whose advice on matters of finance are considered valuable.

The Merchants and Manufacturers' Association last night voted to turn its factory site holdings on Washington and Santiago streets over to the fund, to be in charge of the trustees to be selected by the subscribers when the full amount is raised.

The property is valued at \$3500 and this amount will thus be added to the industrial expansion fund. With this, the committees which went to work this morning had subscription blanks showing practically \$30,000 of the needed sum raised.

#### JAP FISHERMAN NABS LION WITH HIS NETS

SANTA MONICA, Dec. 6.—K. Pyehara, a Japanese fisherman living at the fishing village near Long Wharf, cornered a small mountain lion in his chicken house, and after a sharp fight used the implements of his own trade, his nets, to pin the wild animal to the floor while he went for a rifle.

The fisherman heard his chickens cackling and went out to investigate. When he opened the door of the chicken house he saw two big luminous eyes. The animal had entered by the entrance used by the fowls, but in its excitement, could not find its way out. The fisherman rushed to his nets and, grabbing one, cast it over the lion, pinning it to the floor. The skin is spread out on the man's door at the village as a mark of prowess.

### BLACKMAIL CASE OF DR. GRAVES, DEFERRED

WASHINGTON, Dec. 6.—Dr. Karl Armgard Graves' hearing on blackmail charges was today postponed until March 10, owing to the government's inability to present certain testimony.

WASHINGTON, Dec. 6.—Dr. Armgard Karl Graves, self-styled international spy, was to appear today before United States Commissioner Taylor to find whether he will answer a charge of attempting to blackmail Countess von Bernstorff, wife of the German ambassador, for \$3,000 by the sale of letters smuggled through the British censor from Germany.

Graves' trial or release depended on whether German embassy officials were willing or able to tell about the visits of Graves to the residence of Prince Hatzfeldt, embassy counselor, Debonair Figure.

Graves today was the same debonair figure he was when arrested, nearly four weeks ago, as he stepped from Hatzfeldt's residence. He has stoutly maintained he never will answer the blackmailing charge.

"I never mentioned the Countess's name," he affirmed. He added that the letters disclosed Count von Bernstorff as a stock gambler.

Around Graves still hangs an air of mystery. He admits "Armgaard Karl Graves" is an assumed name. He will not tell his real name. The German embassy declares he really is named "Meinke," and was educated at Berlin public schools. He claims to have been intimately associated with the high counsels of the German government.

### GIANT STRIDES MADE IN BATTLE FOR PROGRESS AS BOOSTERS SIGN UP

Great Enthusiasm Marks Merchants' Luncheon As Reports Are Made

#### CONTRIBUTIONS POUR IN WITHOUT STINT

Announcement That Amount  
Is In Excess of \$50,000 Is  
Greeted With Applause

Following are the chairmen of the industrial fund committees, with the amounts secured:

Clyde Horton	\$2300
J. P. Baumgartner	1000
R. L. Bisby	3600
F. P. Nickey	2800
C. S. Kendall	2900
W. N. Vandermaast	4350
John A. Harvey	4000

Total . . . . . \$20,850

Butt, button, who has the button? Are you wearing one of those yellow buttons which indicate that you have joined the boosters and subscribed to the Industrial Expansion Fund?

Everyone's doing it. It is the popular idea.

The \$50,000 fund was over-subscribed at noon today and the goal has now been placed at \$100,000.

The committees had hardly gotten into the harness when the announcement was made at the noon luncheon of the merchants that the subscriptions secured this morning overstepped the \$50,000 mark and it was greeted with applause.

J. S. Smart—it now seems that these committees are without a job—we have reached the sum originally suggested. Shall we make it \$100,000? Chorus: Make it \$100,000!

Tremendous Enthusiasm

It has been a long time since this city has witnessed the enthusiasm manifested by sixty solid business men of this city at the luncheon, when the reports of the various committees were made.

Their reports indicated the hearty co-operation of every branch of endeavor. The committees were received with enthusiasm wherever they went and contributions came without hesitation in practically every instance.

J. W. Wiesseman was chairman of the luncheon committee and he is credited with being the chairman of the committee getting out the largest attendance at any of the pleasing once-a-week noon affairs.

The practice of having an address was dispensed with and reports from the soliciting committees were substituted. It was good news all the time. It stirred the committee and merchants. It instilled the spirit of good fellowship even more deeply than has characterized the pleasant associations of the business men in the past. It made them feel as one—fighting for a bigger and better Santa Ana.

Smart Talks

J. S. Smart—it is not our intention to finance any enterprise. We are raising this fund to assist men with brains and capital. Last night while the M. and M. was in session we had a long distance call from a man in Los Angeles, who said he had seen in Los Angeles papers that he had raised \$14,000 in fifteen minutes, and he wanted to know if we could raise \$140,000 in two days. He represented a moving picture company. I told him "nit."

Chairmen of the committees at work today responded as follows upon being called on for reports by Chairman Wiesseman:

Clyde Horton—We saw a great many people, all of whom were enthusiastic over the proposition. I feel as though the work had just been started. I know there are lots of property owners who will be only too glad to have an opportunity to assist the city by signing the agreement.

J. P. Baumgartner—Mr. Smart and I called upon an even dozen people. Only in one instance did we get an absolute refusal where we expected a good subscription. We had another partial turn down. Others spoke in the most encouraging terms and promised to later give support to the movement.

Champion Booster Boosts

R. L. Bisby, introduced as the champion booster of Santa Ana—I want to say that the thing that pleases me most is to see the larger number of men here. I am glad to see them getting together in an even dozen people. This movement does not accomplish its purpose if it will not have been in vain for it will have been the means of bringing all the business men together and enlisting them in co-operation.

(CONTINUED ON PAGE 3)

To Encourage Early Shopping the Rowley Drug Company Announces a Great

4-Day

# HOLIDAY OPENING SALE

Sale Begins Wednesday and Continues Until Saturday

Our Entire Stock of Holiday Goods, Toilet Articles and Preparations, Drug Store Sundries, Etc., Will Be Offered at Greatly Reduced Prices.

## Hand Bags at Half Price

All the newest styles and shapes in the finest leathers—Pin Seal, Morocco and Goatskin. Regular Prices \$1.25 up, Choice During Sale 1/2 Price

## Splendid Assortments of Suitable Gifts at LOWEST PRICES Practical and Acceptable Articles. Do Your Shopping Early

Shoppers with a limited amount to spend for gifts—and a large list of people they must give—will find this Christmas Store most helpful! They will find that they can purchase finer gifts—than they thought possible—for the amount—they intended spending. For your own convenience—and your profit—we urge you to do your Christmas shopping now. Make up your mind to complete your Holiday buying by the middle of December. Then you can comfortably sit back and watch others in the last-hour scramble. We have never shown such a wonderful array of ideal gift-pieces. Come in early!

## Theatrical Cold Cream

A 50c 1-pound box for 34c Oil of Rose and Geranium odors. This Cold Cream is made and guaranteed by the Rowley Drug Co. Put up in convenient screw top one-pound can. A Full Pound for 34c

## ARE ENTHUSED BY CONFERENCE

Y. M. C. A. Gathering At Pasadena One to Be Long Remembered By the Boys

Orange County was represented at the annual Older Boys' Y. M. C. A. conference, held at Pasadena last week-end by the largest delegation ever sent from this county. With over 600 attending, this was the largest conference ever held in California and the Orange County boys were proud of the fact that theirs was the largest delegation sent from any city, community or county in the state.

Fifty-one boys and four leaders made the trip and all have come back greatly enthused for an even greater Y. M. C. A. work for the boys and men of the county. When the reports of

the Bible Study Club and Group Work were made by the representatives of the different districts only one was found to rank ahead of this county, and that by only two groups. The boys were entertained at the homes of the Pasadena millionaires and many interesting and funny stories are told of their experiences with the many servants and mannerisms of the ultra rich. One boy in trying to turn out the light touched the call button bringing a butler to his assistance. Another kept getting the owner and the servants mixed and finally thanked the porter for the hospitality of the home.

The heavy rain of the week-end did not mar the enthusiasm of the conference but it did keep several of the machines from going for the boys and they might have been stranded had not County Committeeman Harry Lewis come to their assistance with car books and railroad fares so that all got home in fine shape.

The next important event will be a joint banquet and meeting of the leaders of clubs and presidents of clubs of the county at the First Presbyterian church of Santa Ana, Saturday evening, at 8:30.

## 5-DAY CONCLAVE AT NAZARENE CHURCH TO OPEN THIS EVENING

There will be held a five-day convention at the Nazarene church, corner West Fifth and Parton, commencing this evening. Rev. Howard Eckel of Los Angeles, district superintendent of the Nazarene church, will be here and preach each evening at 7:30. Rev. Eckel is a man of unusual strength. He is a new man to the people of Santa Ana, but he is sure of being liked. He has had wide experience in evangelistic work and has success as a soul winner.

## BREAKS A COLD IN JUST A FEW HOURS

"Pape's Cold Compound" Ends Grippe Misery—Don't Stay Stuffed-up!

—You can end grippe and break up a severe cold either in head, chest, body or limbs, by taking a dose of "Pape's Cold Compound" every two hours until three doses are taken. It promptly opens clogged-up nostrils and air passages in the head, stops nasty discharge or nose running, relieves sick headache, dullness, feverishness, sore throat, sneezing, soreness and stiffness. Don't stay stuffed-up! Quit blowing and snuffling! Ease your throbbing head—nothing else in the world gives such prompt relief as "Pape's Cold Compound," which costs only 25 cents at any drug store. It acts without assistance, tastes nice, and causes no inconvenience. Be sure you get the genuine.—Advertisement.

## ORANGE XMAS TREE PLAN IS GIVEN UP

Woman's Club Abandons Municipal Tree As Result of Money Calls

ORANGE, Dec. 6.—The Woman's Club of Orange held its regular meeting in the Colonial Theater. Owing to unfavorable weather the attendance was not large, but all who turned out were well repaid. The usual business was followed by a discussion as to the advisability of having a municipal Christmas tree.

In consideration of the unusual calls for money, and the fact that the club is just furnishing the new club room, the Christmas tree was abandoned for this year.

Then followed a solo by Dean Campbell, Schubert's Serenade, accompanied by Mrs. Geo. Harper. The hearty applause brought an encore.

Talks On Bird Life  
Mrs. Myers of Los Angeles, then talked to the club about the protection of our native birds, after which she gave a lecture illustrated by colored slides on bird life. Mrs. Myers is chairman of Birds, Wild Life and Flowers of the General Federation and secretary of the State Audubon Society.

She was followed by Mrs. J. W. Newell, Southern District chairman of Conservation of Birds, Wild Life, Forest and Water, who gave a short address on the conservation of our forests and water supply.

Gives Party  
Mrs. Floyd W. Parsons of North Shafter street, was hostess to a party of ladies. Social pastimes filled the afternoon pleasantly and light refreshments were served.

The Lemon street Parent-Teacher Association will meet Thursday, December 7, at 3 p. m. in the kindergarten room of the school. Exercises by the fourth grade pupils and a vocal solo by Miss Vida Morrison are among the numbers planned for the day's program. There will be a talk on children's books by Mrs. Robert Northcross.

Orange Notes  
Noel Newton who was severely burned by a gasoline explosion, is reported to be getting along in good shape and his burns, though painful will not prove serious, it is believed. Martin Danner, the newspaper carrier who was run over by an automobile Friday evening, remains in about the same condition. His prospects are still regarded as uncertain. Mr. and Mrs. D. A. Blank and daughter Katherine, arrived here from Saginaw, Mich. Miss Elizabeth Blank will remain in Saginaw for a few

months more. Fred Heitshusen who was injured in a motorcycle accident at Villa Park, is gradually improving at the San Joaquin sanitarium.

Mrs. George De Pugh and children returned from Harper, where they had been visiting since Thanksgiving. Robert Sears who has been visiting his father, D. W. Sears, of Villa Park, left for his home in the San Joaquin valley.

D. A. Chaffee and family with their guests, George Chichester and family of Great Falls, Mont., motored to Long Beach yesterday.

Mrs. Emily Leach who has been suffering with inflammation of the eye, is improving. Mrs. Alice Huff and Mrs. Emma Hobbs are spending a week at Long Beach.

Yesterday seven hundredths of an inch of rainfall was added to the season's total, which is now 3.24 inches.

Mrs. Celeste B. Thompson left for Chicago, traveling over the Santa Fe. Mrs. Charles Roemer of East Santa Clara avenue, is suffering from an attack of asthma.

W. H. Burnham of Los Angeles is spending a short time here looking after business interests.

W. A. Gordon of Los Angeles, is stopping at the Hotel Orange. C. E. Lush of the Lush Garage, is reported on the sick list.

Mrs. John Holmes is convalescing after an extended illness.

LINGERING COUGHS ARE DANGEROUS  
Get rid of that tickling cough that keeps you awake at night and drains your vitality and energy. Dr. King's New Discovery is a pleasant balsam remedy, antiseptic, laxative and promptly effective. It soothes the irritated membrane and kills the cold germs; your cough is soon relieved. Delay is dangerous—get Dr. King's New Discovery at once. For nearly fifty years it has been the favorite remedy for gripe, croup, coughs and colds. Get a bottle today at your drug-gist's, 50c.

## HUNTINGTON BEACH GRAND JURY BOARD AT BEACH SCHOOL

Visit to Southern Section of the County Favorably Impresses Committee

HUNTINGTON BEACH, Dec. 6.—The grand jury committee to whom was entrusted the business of inspecting schools, city buildings and other public buildings in the southern half of the county, has been making the rounds of Huntington Beach and other places in this vicinity. The committee has not given any intimation as to what its findings will be but seemed to be favorably impressed with its visit in this section of the county.

L. M. Lindsey has purchased a five-passenger Oakland touring car and is trying it out on short trips.

Ray Shaffer, who has previously attended Harvard Military school, has entered the local high school as a junior. He is late in entering on account of service at the border as a member of the California National Guard.

Other Notes  
Mr. and Mrs. B. F. Fehrenback of Los Angeles, who have been the guests of Mr. and Mrs. W. R. Higgins and family, have returned to Los Angeles.

Mrs. Anna Davidson of Oxford, Mass., has arrived in the city and is the guest of her sister-in-law, Mrs. M. B. Davidson, of Tenth street. She expects to spend the winter in this city.

Mr. and Mrs. Ed Woolsey of La Habra have been the guests of W. R. Higgins and family and have returned to their home.

Mrs. W. T. Newland and daughter, Bernice, have returned from Pomona, where they spent several days. The Neighborhood Club met with Mrs. Henry Boyer on Tenth street Friday afternoon of last week.

Mrs. C. H. Howard, who has been ill for several days is much improved. Misses Sylvia and Marguerite Ames who have been confined to their home for several days are again able to attend school.

Miss Annie Hill is planning a recital to be given during the Christmas vacation. She will be assisted by Mrs. Leona Mudgett Crawford, formerly a teacher in the local high school.

Clarence E. Hunt has returned from a visit in Los Angeles.

Mr. and Mrs. H. T. Sundbye and family have returned from a short visit to Covina and Riverside.

Mr. and Mrs. C. G. Boster entertained Mr. and Mrs. W. A. Frost of Whittier at dinner Sunday.

Mr. and Mrs. Parker Dear and son, Bandini, spent a portion of last week in Huntington Beach.

J. D. McIntyre of the Holly Sugar Company, has been transferred to Delhi, where he will serve as assistant superintendent.

The Woman's Christian Temperance Union meets this week with Mrs. J.

## UNDERSEAS WIRELESS PHONE TEST PLANNED AT SANTA BARBARA

SANTA BARBARA, Dec. 6.—Preparations have been made for the installation of a wireless telephone between Santa Barbara and Santa Cruz Island. The submarine phone invented by Dr. H. H. Haringer Cox, a resident of this city, will be used, and in this instance the message will not go underground, but through the water. At present there is no phone or telegraph connection between the island and the mainland, and the service will be of great advantage in times of necessity. The line is for experimental purposes only, except, of course, in emergency cases. The Cox phone will require but two volts to carry a message the thirty miles, while the ordinary wireless apparatus necessitates a 700 voltage power station for the same distance.

To San Diego—Crown Stages, one way, \$2.75; round trip, \$5.00.

### Jewelry Christmas

## WINTERSBURG CHICKEN PIE FEAST SCHOOL GIRLS' PLAN

Class Needs Sewing Machine and Will Put On Evening Of Dialogue, Song

WINTERSBURG, Dec. 6.—On Friday next, the girls' sewing class of the Ocean View grammar school will give a chicken pie supper at 6 o'clock, to which the parents and friends of the school are most cordially invited. Following the supper will be a program by the school children, consisting of dialogues, songs and recitations. The sewing class, numbering about twenty girls, is in need of a sewing machine, and the proceeds of this entertainment are to apply on the purchase of a first class machine. All are urged to come out and encourage the effort and incidentally see what the school is doing.

Wintersburg Notes  
The baby daughter of Mr. and Mrs. J. H. Robinson is quite ill with pneumonia at the home of C. N. Davis. Mrs. M. J. Barton is celebrating her sixty-first birthday today. Mr. and Mrs. W. F. Slater and family returned Sunday from a visit of several days in Los Angeles. They thought the rainfall out this way was heavier than in the city.

Mrs. A. H. Moore, who has been ill for a week or more, is reported better today. Reuben Meredith, who has been visiting H. H. Hathaway for a few days, left Monday for his home in Covina. Mrs. Mary Harris will remain with Mrs. Hathaway for an indefinite time.

The regular monthly meeting of the official board of the Methodist church scheduled for Monday night, was postponed until next Monday, December 11, at which time the finance committee for the social hall will make their report of amounts subscribed for the proposed building.

Mrs. James Haptonstall underwent a minor operation at the office of Dr. G. A. Shank of Huntington Beach, a specialist from Los Angeles removing a tumorous growth from her right eye. She is getting along nicely and no further trouble with the eye is anticipated.

Miss Mabel Ulrich returned Sunday from Hemet where she visited friends.

Miss Ruth Jordan returned Sunday evening from a visit to her home in Redlands. She with the other members of the family, was treated to a genuine surprise by the arrival of her brother and family, from Oregon, who came to spend Thanksgiving under the parental roof.

Dr. Ada B. Keller, Osteopath, graduate of Kirksville, Mo. Office, 804 West Fourth Street. Phone, Pacific 238.

You can remember twelve friends with a dozen portraits. Hickox Studio.

# Advance Holiday Offerings

## New Sweater Coats \$6

—Novelty Coats are in favor, and they are extremely attractive; large white collars and belts are in vogue, especially on the angora knitted materials.

—We are showing a New Sweater Coat in a knitted material, a close copy of real angora, at only \$6.00. With a large white sailor collar and belt, and the body of Old Rose, Copenhagen Blue, Green, and Purple. These Coats are extremely attractive at this low price.

### Angora Wool Sweaters, \$9 and \$10

—Angora Wool, heavy fleeced face, with strong knitted back, warm, well shaped, handsome.

—The Coats are finished with long shawls, and big white collars. We show models in Old Rose, Copenhagen Blue, and Purple, with striped purple and white trim.

### Staple Rough Neck Style, \$5 and \$6

—Always wanted and always good for hard service, the popular rough neck styles can be had in a variety of qualities, and colors. These yarns are highest grade, the famous "Bradley" goods. Color range includes Oxford, Maroon, Cardinal, Navy, and White. Two popular priced grades, at \$5.00 and \$6.00.

### Skating Sets, \$1.50 and \$3.00

—Scarf finished with fringe, and cap to match; shown in Red and White, Blue and White and Scotch Plaids. A very popular combination.

## Dependable Silk Hosiery

—We have dependable Silk Hose. In spite of the scarcity of German Dyes, and scarcity of Silk, we have a complete line of dependable Silk Hose for the Holidays.

—Kayser's, Wayne Knit, and Phoenix are the lines you can always "bank on," in any situation.

### "Phoenix" Silk Hose, 80c and \$1.05

—Rather than reduce the quality, The Phoenix Knitting Mills raised the prices of their hose, which accounts for the odd prices established. You can "bank on" the wear of "PHOENIX" Silk Hose, every pair guaranteed to give satisfaction.

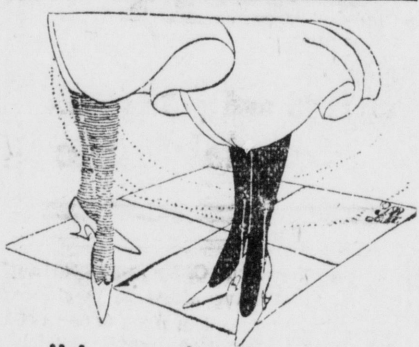

—We show this Hose in Black, White, and all staple colors.

### "Kayser" and "Wayne Knit" Silk Hose

—Two great lines with an established and untarnished reputation for highest value under all conditions. We show Black and White only, but in a good range of qualities.

—White Silk Hose at \$1.00 and \$1.50.

—Black Silk Hose at 50c, 75c, \$1.00, \$1.25, and \$1.50.

—The Holiday Season is right here. Shoppers are scurrying around, decorations are going up, and it begins to look like Christmas.

—We will have lots of lovely things to talk about this Christmas. We begin today with some suggestions, and some mighty good "Advance Offerings" in Coats and Suits. Drop a line to "Santy."

## Smart Winter Coats and Suits Reduced

—This announcement will bring joy to the Woman or Miss, who is counting on a new Suit or Coat for the Holidays.

—We are making price concessions that are tempting indeed to buyers with "an eye for a bargain" — for these are new Coats and Suits, smart Winter Styles, all of them. We do not quote comparative prices, but will be glad to show you individually just how much you will save at the following figures:

### Suits Now \$17.50

—Just 23 Suits left to be sold at \$17.50.

There are such staple cloths as Serges and Gabardines, Whipcords, and the new Velours. The color range includes Browns, Blues, and Black mainly, in models semi-tailored, and velvet fur trimmed.

—These are all new Suits, the balance of our medium priced lines, and every one way underpriced at \$17.50.

### Suits Now \$23.50

—About 20 Suits left to be sold at \$23.50.

There are our higher priced Suits, in the fancier models, semi-tailored, showing absolutely correct lines, colorings and trimmings. Just a good size range left in Broadcloth, Velour, Venetians, and Garbadines.

—Big reductions make these Suits exceptional values at \$23.50, as you will note by comparing what similar models originally sold for.

### Coats \$8.75 and \$15

—At \$8.75, just a few special values in good service Coats, odd sizes, suitable for school wear. Materials are heavy Scotch Tweeds, in colors of Browns and Tans.

—At \$15.00, about a dozen Winter Coats, sizes 16 to 44, in heavy Scotch Mixtures. Built for storm service. Collars are the convertible kind, buttoning high about the throat, or lying flat on the shoulder. Two styles, the flare from the shoulders or belted with pockets.

—These are excellent values, at the reduced price of \$15.00.

### Coats \$19.75

—About 15 to 20 of our higher priced Coats left, to close out at Special \$19.75. Chinchillas, Zibelines, and Novelty Woolens only, in colors of Cardinal, Burgundy, Green, Blues, Browns, and Black and White.

—These are all new Winter Coats, every one of them attractive, and right up to the minute in style. As an advance Holiday offering, we have priced them special at \$19.75.

### Fine Plush Coats

—Of the famous "Salt's Scalette" the best fur fabric on the market. We show beautiful Coats, in Black only, at the following prices:

\$25.00, \$30.00, \$32.50, \$37.50, and \$40.00.

## Umbrellas, Reliable Quality

—Umbrellas that are fast black, materials that will not split, frames that will not rust, handles that will not warp. Our umbrellas give satisfaction.

—The Suit-Case Umbrellas, with detachable handles, can be had in several qualities of material, ranging in price from \$2.50 to \$5.00.

—Regular Umbrellas, in medium and short handles, can be had here at all prices from \$1.00 to \$5.00. Natural, polished wood handles are in favor, but we show also sterling silver mounted handles.

### Lace and Net Waists

—Dressy Blouses, of lace nets and Georgette Crepe combinations, and Nets with Lace Trimmings, are being shown in our Waist Department.

—Prices, wide range of choice at \$3.50, \$4.00, \$4.50, \$5.00, \$6.00.

## Lovely Camisoles \$1 to \$2.50

—In our Corset Department, and such a variety!

—Camisoles of Wash Messaline, white or flesh colored, with the daintiest shadow lace yoke, or with lace medallions and chiffon top and straps, at \$1.50. Other styles, in silk and net, at \$1.00.

—Camisoles of Silk, or Wash Silk, finished in Georgette Crepe and trimmed in rosebuds and laces, exceptionally dainty, \$2.25 and \$2.50.

## French Kid Gloves

—The Glove situation is extremely critical, as very few French Gloves are now being made. Our large stock can carry us safely through the Holidays, and give you what you want in black, white and colors. We carry two famous makes:

### "Perrin's and Alexandre" French Gloves

—Dress Gloves, finished with overseam, and stitched backs, Black, White, and colors of Gray, Tans, Browns, and Navy. All sizes, fitted perfectly at our counter, priced \$2.00 and \$2.50.

—Pique Gloves, for street wear, all sizes, and in black, white, and staple colors, at \$2.00.

### Harrison's Fabric Gloves

—The finest Fabric Glove made, and an exceptional imitation of kid. Put them in the tub with the clothes and wash them. They will wear kid and give satisfaction all the time.

—Made of four ply material, colors White, Biscuit Tan, Gray, and Black. Prices 75c and \$1.00.

—Children's Kid Gloves, tan only, in sizes for infants and children, at \$1 and \$1.25 per pair.

## GIANT STRIDES MADE IN BATTLE FOR PROGRESS AS BOOSTERS SIGN UP

(CONTINUED FROM PAGE 11)  
active efforts for boosting this city.

F. P. Nickey—We're going to raise the \$100,000—nothing less.

C. S. Kendall—We visited nine people and got subscriptions from eight of them and promise of a subscription from the other.

W. N. Vandermast—Only one man put us off. He offered to sign for \$500 but we believed he should give double the amount and left it for him to think over.

John A. Harvey—We had good suc-

## BELL-AN'S Absolutely Removes Indigestion. One package proves it. 25c at all druggists.

## LADIES' BLACK KID Nine Inch Boot

Hand turned soles, medium short vamp, widths A to D, an exceptional value at

**\$4.50**

**PETERSON'S SHOE STORE.**

314 N. Sycamore St. Spurgeon Bldg.

cess—we raised \$4000.

### Chairmen Report

The amounts that each committee raised was reported by each chairman and were as given at the opening of this article. Two or three subscriptions were taken at the luncheon, and they appear in the list of subscribers.

The ball is now rolling. Those at the head do not propose to let it stop. The committees will meet at the Chamber of Commerce rooms again in the morning. Everyone must be there. Nothing will be taken as an excuse. Business is before them—business that is important—business that means much to the future of Santa Ana.

W. N. Vandermast's committee carried off the honors of the day, reporting the highest total. Edwin McFadden, C. H. Chapman and Fred Fuller worked with him.

### FATHER GILMARTIN'S PRECIOUS SOUVENIR

NEW YORK, Dec. 4.—One of the most highly prized objects in the museum of the parochial school of the Blessed Sacrament of Seventy-first and Broadway, is the baseball which was in play at the end of the game between the Giants and the St. Louis Cardinals when the Giants won their twenty-first consecutive victory, breaking the record for successive victories.

Manager McGraw of the Giants had all the members of the Giants and Cardinals who took part in the game write their autographs on the cover of the ball and then presented it to Father Gilmartin, pastor of the parish, a devoted follower of the Giants and a close friend of McGraw. Father Gilmartin knows practically all of the ball players of the country and is greatly admired by them. Such teams as stop at the Ansonia would rather have him call on him before leaving the hotel for the park than to find a rabbit's foot, so confident are they that his visits are harbingers of victory.

### 'EXPLOSION' CURES GIRL ILL 12 YEARS

WAUKEEGAN, Ill., Dec. 4.—Ethel Garmant, 19, is on a meat diet, after twelve years of subsisting upon soup, with starvation always just around the corner as the result. Miss Garmant, who until recently never had weighed more than 35 pounds, is hovering around the 100-pound mark.

It was an internal explosion which cured her. Chemicals were forced into her intestines by means of a cord which she swallowed. When the chemicals met they "exploded" and burst a contraction in the intestines which had prevented the girl from digesting solid food since she was 7 years old.

Hungary prohibits the importation of adulterated or artificially colored beer or the use of coloring extracts in that brewed at home.

## RUMORED SALT LAKE IS GOING TO SAN DIEGO

Los Angeles Paper Says Someone Heard Right-of-way Secured

"The open season for 'building' railroads into San Diego is again at hand, brought on in some measure, no doubt, by the S. A. A. Southern Pacific announcement and the Santa Fe shop and terminal building announcement," says the Los Angeles Tribune.

"Most conspicuous in the reports are statements by persons who claim to have reliable information that the Salt Lake railroad, long expected, has secured right-of-way through the Santa Margarita ranch in San Diego and Orange counties and the Irvine ranch in Orange County.

"This right-of-way would give the Salt Lake a route from Santa Ana down to Oceanside."

## IMPROVED CITRUS TREES AIM OF U. S.

Plant Industry Bureau Works To Secure Uniformity Of Product

WASHINGTON, Dec. 4.—More than 200,000 select fruit-bearing buds from citrus trees with known performance records have been placed in the hands of co-operators of the Bureau of Plant Industry, of the U. S. Department of Agriculture, who are to permit the Department to secure progeny records from the trees so propagated.

The purpose is to secure uniformity of strain of the trees and the fruits borne by such trees. This distribution follows extensive taking of records of select trees of the Washington Navel and Valencia oranges, Eureka, Lisbon, and Villa Franca lemons, Marsh grapefruit, and Dancy tangerine. The buds are supplied not merely for propagation of nursery stock, but, in many cases, for the top working of unprofitable trees in established plantations.

Recently in co-operation with the California Fruit Growers' Exchange,

a systematic campaign has been undertaken to eliminate all the inferior strains of grapefruit in California by top-working trees of such strains with select buds from trees of the Marsh variety, with known performance records, thus reducing the grapefruit production of the state practically to the basis of a single variety.

Each year sees an increase in the number of citrus growers in California who adopt the commercial tree performance record system for locating trees of unprofitable character, either because they bear little fruit or because they bear fruit of a strain not well suited to commercial use. A second commercial nursery has been established during the year in California for the purpose of propagating trees from wood borne by record individuals.

Of interest also to the citrus grower is the statement in the Annual Report of the Chief of the Bureau of Plant Industry that a machine has been invented which successfully removes the oil bearing portions of the rind of waste and cull oranges and other citrus fruits, thus making it possible to eliminate a large part of the expensive labor which has heretofore rendered the domestic production of sweet-orange oil commercially unprofitable. This machine has been patented and dedicated to the public. There has also been devised a simple practical and inexpensive method of manufacturing sweet-orange oil from the rind of cull and waste fruit removed by the machine mentioned.

Studies of the citrus scab, a disease increasingly destructive in the past few years in Florida, especially in grapefruit groves, were undertaken. Spraying experiments indicate the possibility of satisfactorily controlling it by thorough protection of the young fruit.

### STEEL HELMETS MAY BE ADOPTED BY U. S.

WASHINGTON, Dec. 4.—Steel helmets may be adopted in the United States army as a result of the trench warfare developed in Europe. The British and French governments have adopted this headgear for their men along the western battle front because it was found that the German soldiers wearing the metal helmets had an additional source of protection against cerebral wounds and death from shrapnel fire. The bureau of ordinance of the war department has obtained one of the new French helmets and is considering their respective merits.

### CASTORIA For Infants and Children

In Use For Over 30 Years Always Bears the Signature of *Dr. J. C. Williams*

## U. S. SHIPBUILDERS REFUSE BIG ORDERS

WASHINGTON, Dec. 5.—Advisers from the various big shipbuilding centers throughout the United States indicate the the Norwegian capitalists who have been endeavoring to place orders for \$200,000,000 worth of vessels to be constructed in this country are experiencing difficulty in letting their contracts because of the great demands of American marine interests upon the private shipyards of the United States, according to officials of the bureau of foreign and domestic commerce.

Puget Sound and Delaware River shipyards alone have accepted contracts for the construction of ships for the Norwegian interests, it was learned. And these two centers, according to reports, are not in a position at present to undertake the building of any more vessels for delivery within a reasonable time.

The big yards at Bath, Me., Quincy, Mass., Newport News, Va., New York and other eastern centers are known to have informed the Scandinavian capitalists, when approached, that the demand of American investors was so great as to preclude negotiations with foreign interests for the construction of vessels of any class until at least the middle of 1917.

### WOODPECKERS SHARE NEST WITH 11 CHICKS

DANVILLE, Ill., Dec. 4.—If you'd ask Theodore Roosevelt he'd probably proclaim Ira Cordrey, a farmer near Federalburg, a nature faker, but Ira's neighbors assert the story he tells about a hen hatching out eleven chickens and two woodpeckers in one nest is true. The hen was missing for some time, stealing her nest out. When found she was mothering the chickens and birds, the little woodpeckers seemed content to let the hen scratch worms for them. The hen pays just as much attention to the birds as she does to the chickens. It is supposed that the woodpecker eggs were laid in the nest while the hen was off in search of food.

### CORN IS STOLEN

W. Dean Johnston of Westminster today reported to Sheriff Jackson that someone had stolen corn out of his field. Under Sheriff Iman and Deputy Fowler investigated.

### PRIVATE LESSONS

—Expression and Oratory. Lillian V. Breed, 1314 Spurgeon street.

Children's Coats at greatly reduced prices at Gilbert's. Sizes 4 years to 12 years. All \$5 coats now \$3.75. All coats reduced for this sale. Take the elevator.

### NOW FOR \$100,000

In the Industrial Fund campaign, the minimum of \$50,000 was raised by noon on the first day of the canvass, and the big bunch of boosters voted unanimously and enthusiastically to go right on with the good work until \$100,000 is subscribed.

And it is vastly important that the fund should not be less than \$100,000. We can call for only ten per cent of it at any one time, which would provide only \$50,000. Suppose we should have an opportunity to secure a first-class, good-sized, highly promising industry which would require the use of \$100,000. With a fund of only \$50,000 we would have to borrow \$50,000. That would not be good business—not nearly as good as to have a fund of \$100,000, so that the \$100,000 could be raised by assessment. Another advantage of a fund of \$100,000 would be that for an industry requiring the use of only \$50,000 the assessment would be only five per cent; or for an industry requiring the use of \$75,000 an assessment of only 7½ per cent and so on.

The raising of a fund of \$100,000 does not necessarily mean we are going to spend twice as much as we would if we raised only \$50,000; but it does mean that whatever part of the fund may be expended can be paid by the subscribers with fifty per cent greater ease—that is, in smaller assessments.

The most significant and delightful phase of the Industrial Fund campaign is the almost unanimous approval it receives. In more than half a hundred interviews soliciting subscriptions this morning, there were only two absolute refusals to contribute, and neither of these refusals was based upon disapproval of the enterprise or the plan of operation.

Another pleasant and promising phase of the work is that it is waking up the sleeping and somnolent segment of the community, and welding all classes of citizens into a harmonious hustling whole. Professional men, merchants, real estate agents, property owners, women as well as men—everybody is interested and helpful.

### HOW THE "DRY" POLICY WORKS

E. J. Sonnenberg, one of the Riverside Press employees, has received an interesting letter regarding the results of prohibition in Washington from his brother, William Sonnenberg, at Tacoma. He was a drinking man before the state went dry, but is now thoroughly convinced of the benefits of personal abstinence and state-wide prohibition. Regarding the benefits of the dry policy to Tacoma, he says:

Washington has had one year of prohibition and you should see the changes. Children who never had a good pair of shoes and mothers who never had a decent dress, now come to town well clothed and well fed. Old buildings where they used to peddle the poison have been torn down and fine stores put up in their places. Men from the logging camps used to come here after a pay day and blow their money all in within two or three days, most of it in the saloons. Then they went back, ragged and dead broke and had to take any job the boss would give them. Now they buy good clothing when they come to town and go back in such a condition that they do not have to ask any favors of the boss.

### With Malice Toward None

By Henry James

#### The Coyote Bites

The other day a confident citizen concluded that a coyote would not bite. So sure was he of this that he proffered a tentative finger in order to test the matter.

Since then the man has been shy one finger, but so much wiser that the digital loss may be regarded as offset by the intellectual gain.

#### Temptations

Various people have been stating their opinion as to the greatest temptation the young have to face. Among the temptations mentioned that of "immoral amusements" is as frequent as any. This raises a question. What are "immoral amusements?"

Under such head, according to the standpoint of the Puritan, all amusements would be classed. Any diversion is a sin. Any moment devoted to pleasure is a waste of time. Therefore, to a certain proportion of unhappy mortals there is no such thing as an amusement that is not immoral. Their own indulgences, taking possibly the form of penuriousness or back-biting, are not, in the strictest sense, amusements, and therefore may be highly moral.

When I was a lad a man who went riding Sunday except to or from church was on the road to hell. I was not allowed to take a walk out Sunday into the fields and in the sunshine among the flowers. Always the theater was forbidden, the dance viewed with a shudder as a trap set by Satan himself. No playing card was admitted to the house. A billiard table in the home would have been viewed as

a horror drawing the wrath of outraged heaven. And so forth.

Some of this spirit of intolerance survives. An "immoral" amusement often will be found to be the form of amusement that does not appeal to the individual who is passing judgment. He doesn't like it, and so he passes it up, making virtuous acclam of his own attitude.

#### Bugs

An amateur entomologist has been arrested for importing a certain ravaging caterpillar for the purpose, apparently, of seeing the critter ravage. That chap may come into court with a plea of insanity and prove that he really has bugs.

#### Trifles

About the meanest thing a man can do with money is to leave it to his widow with a forfeiture clause in case she marries again.

While no jury would be expected to believe a private detective, twelve gallant men must be torn by conflicting emotions when the p. d. is a young and pretty woman.

When a man drives his auto full tilt into an oncoming street car and the jury terms the episode an accident the jury is being very kind.

A man who couldn't provide for his family blew out his brains, thus naturally elevating the family to a position of ease.

When a girl flyer landed after a record flight she said: "For goodness sake lend me a powder puff." Don't think for a minute that a girl sheds her femininity when she dons male togs.

Many men have proposed marriage to the congresswoman-elect. This is a blow to masculine pride, the sterner sex never having supposed that it nourished this type of idiot in its midst.

A congressman-elect has reached Washington by flying machine, and is said to have been the first to arrive at the capital by air. Not so. Hot air accounts for a lot of his kind.

Wonder if the shoe dealer will wear a mask and carry a piece of gas pipe when he begins charging \$20 for a \$6.50 pair of shoes?

The man who sold his wife's false teeth in order to buy whiskey is generally regarded as not being a considerable husband.

Recently a girl fainted at a murder trial, but sympathy is withheld on the broad ground that had she not been a chump she would not have been there.

It is said that one man has 72,000,000 eggs. He's a bad egg himself, this bringing the total to 72,000,001.

The mental condition of the creature who scatters tacks on the boulevard ought to be ascertained by autopsy.

Several powers object to an American loan to China just as frankly as though it were some of their business.

If the people who have been dieting at a cost of 40 cents a day kept within that limit they stole most of the grub.

Congratulations Acknowledged  
I acknowledge receipt of your note; Thanks kindly, although 'twas a blun.

At such times, of course, we desire To pull the politest of stuff.

### 26 AUTOISTS MISTAKE FLAGMEN FOR BANDITS AND CARS ARE LAID UP

POMONA, Dec. 6.—Twenty-six automobiles were laid up for repairs on an afternoon and evening along a strip of the valley boulevard less than three-quarters of a mile in length, and it is claimed that practically all of the cars were damaged by skidding which resulted from fast driving when the drivers mistook the flagmen of a ditching gang for highwaymen.

The Southern Counties Gas Company of this city is laying a fourteen-mile gas main between this city and the Brea oil field. The contractor has had his gang pile the dirt from the ditch at the left side of the boulevard. Rain dissolved the lumps of yellow clay that lay along the edge of the paving, and the mud oozed around until it became quite well distributed over the paved road, making it as slick as though it was soaped.

At night the contractor put six flagmen on the job. Each man swung a red lantern to warn automobilists against driving fast. Most of the drivers mistook the flagmen for highwaymen and speeded up their machines. In nearly every case a skidding resulted, and down found twenty-six cars laid up at the roadside. The gas company has required the contractor to establish big white caution signs at each end of the slippery strip, with white lanterns at the side of each sign, so drivers can plainly read the warning.

### WHITE MAN VISITS BLONDE ESKIMOS

SASKATOON, Sask., Dec. 4.—The tribes of blond Eskimos which Harry V. Radford of New York, the murdered explorer, reported he had found on Coronation Bluff far in the Arctic zone, have again been visited by a white man.

In a letter received from the Rev. H. Rev. Dr. Emmanuel College by the Rev. Dr. Carpenter, principal of the missionary announced he reached the tribe Oct. 10, 1915, and remained with them some time.

He asserts he is the first white man to dwell among the new found people, since their discovery have constituted an ethnological mystery and formed the goal of unsuccessful expeditions.

The letter was dated last December, from "Camp Necessity," ten miles from the blond tribe, the first of whom the missionary said he found about ten miles east of Cockburn Point. Girdling said the language of the fair skinned race is only a dialectic difference from that of the Mackenzie river Eskimos.

CONSTIPATION MAKES YOU DULL  
That draggy, listless, oppressed feeling generally results from constipation. The intestines are clogged and the blood becomes poisoned. Relieve this condition at once with Dr. King's New Life Pills; this gentle, non-gripping laxative is quickly effective. A dose at bedtime will make you feel brighter in the morning. Get a bottle today at your Druggist's, 25c.

Phoenix Silk Hosiery on sale at Gilbert's, packed in Xmas boxes. Buy your Christmas hosiery now and buy at Gilbert's.

Mother, I want to see Red Riding Hood at the Opera House.

## Vast Throngs Clamor For Admittance! Thousands Stand In Line!! To See

# CLARA KIMBALL YOUNG

IN HER FIRST GREAT EIGHT-REEL PRODUCTION

## "THE COMMON LAW"

By Robert W. Chambers.

Such is the report from all over the United States. Theaters have been unable to handle the crowds; never has a masterpiece done such tremendous business—breaking house records everywhere; Selznick Pictures are great-made.

Don't be fooled by misleading advertisements, this is the only Theater showing Clara Kimball Young in all her new seven and eight reel masterpieces

ONLY THREE MORE DAYS, TONIGHT, THURSDAY AND FRIDAY.

## WEST END THEATER

Three shows each day, pictures start sharp, Matinees 2:30; Evenings 7:00 and 9:00.

Admission, all seats 25c. No seats reserved, first come, first served. Box office opens at 1:45 and 6:30 p. m. Special Music

Come early to get seats for first show.

Special Music

### The People's Forum

What communications will be published under this head, provided they are signed by the author, or the author's name be sent to the Editor as an evidence of good faith. However, the Editor shall be the sole judge as to the propriety of publishing any communications, and the Register assumes no responsibility for any views that may be expressed in this column.

Santa Ana, Dec. 4, 1916.  
Editor Santa Ana Register:

Reading your paper of November 25, my eyes caught an article with the heading "Cost of Living Analyzed by Farmers in Session."

I am not a politician and therefore will not discuss embargo on foodstuffs, but when the farmers go so far as to blame the high wages of farm laborers for the high cost of living, I cannot refrain from voicing my sentiments.

It is, in my opinion, scandalous conditions under which the farm laborer in California is now working. My own experience is my only informer and my knowledge is based on real facts.

In January, 1916, I got a job as blacksmith on a ranch in orange county, and my wage was \$35 per month. That was my first job on a ranch in California, and therefore I was not prepared for what I was up against. I had no bedclothes, and when I asked the boss for some, he just laughed at me and showed me a poor imitation of a bed nailed up of old packing boxes and a few pieces of lumber with dirty barley sacks for mattress, sheets, pillows and blankets.

So much about the bed. If the room (or bunkhouse) had been anywhere clean I think I could have slept all right, but cleanliness was kicked out by heavy boots with dirt and manure from the field, and sanitation was knocked in the head by contamination of all kinds. There were eight men working on the place, but not a wash-basin or a bath, and I had to take my weekly bath in the blacksmith shop, after heating the water with hot iron from the forge.

We started to work at six a. m., with one hour for dinner, and quit work at six p. m.—for \$35 per month. I have been in the United States a little over ten years, and I have worked in a few of the different states, but I have never, in any of them, found such poor, nay, rotten conditions for farm laborers or farm mechanics, as I have found them in California—the Golden State, the Land of the Setting Sun.

The causes for the poor conditions may not all be laid on the farmer, and I believe that the greatest part of the blame can be laid on the federal government; but I am sure that if the farmer of California would take more care of and greater interest in the welfare of his laborer, it would be a great step toward the betterment of farm conditions in general, and the farm labor problem in particular.

Give the laborer a good bunkhouse, a good bed, clean bedclothes, washing accommodations in the bunkhouse, a shower or tub bath and a stove, and see that things are kept in clean and sanitary conditions. Instead of having things that way, the California farmer prefers to have the worst kind of laborers, if they are cheap, and let them sleep in a shed or barn or a stack of bare straw in the open, and then brag about how cheap he can run his farm and how much he can make. And instead of improving the conditions on his place he buys automobiles and other luxuries for himself and his family.

Now take the statistics of last year's income of the California farmer and see if he can, on any point place the blame for the high cost of living on the high cost of farm labor. I am confident that I can show other and more deserving causes for the blame of the high cost of living for the California farmer. I believe that the Humane Society has a big field to work on, if it

would do anything to better the conditions of the farm laborer, for they are at least human beings and deserving of humane consideration; but we are a selfish lot of creatures, who do not practice what we preach: "Do unto others as you would have others do unto you!"

I shall be glad to answer any questions concerning the farm labor problem or enter into a debate with anybody on the cause of high cost of living for the farmer; but I will do so only with the object of serving humanity in general and the farm laborer in particular.

Hoping that my article will find room in your columns, I thank you, sir, and remain,

Respectfully,  
HARRY WENTZEL.

### WINTER BRINGS COLD TO CHILDREN

A child rarely goes through the whole winter without a cold, and every mother should have a reliable remedy handy. Fever, sore throat, tight chest and coughs are sure symptoms. A dose of Dr. Bell's Pine Tar Honey will loosen the phlegm, relieve the congested lungs and stop the cough. Its antiseptic pine balsams heal and soothe. For croup, whooping cough and chronic bronchial troubles try Dr. Bell's Pine Tar Honey. At all Druggists, 25c.

Buy your Christmas gifts at Catholic ladies' sale Saturday next, 109 East Fourth street, between Swanner & Anderson's and Gordon's new grocery.

### FISHERMEN PROSPER IN NEUTRAL NATIONS

WASHINGTON, Dec. 4.—British fisheries have reduced their production to less than one-third of what it was before the war and French fisheries have similarly suffered, presumably because of the war, consular reports to the Department of Commerce show.

"As a result," the reports state, "not only have neutral European fishermen profited both in amount of sales and

higher prices, but Canadian exports of this product have aided in producing a banner year in the past fiscal year, the value of fisheries being \$35,950, i. e., or an increase of more than \$4,500,000 over the previous year."

Ladies' and Children's Coats on Special Sale at Gilbert's. Every coat in stock at a great saving. Take the elevator.

FOR REDUCED PRICES see Chas. Land, Ladies' Tailor, 109 East Third.

## FATHERS TALK

Topics Relating to School Work Spoken of At Roosevelt P. T. A.

The Parent-Teacher's Association of the Roosevelt School held a very enthusiastic meeting last evening with a splendid attendance. Several of the fathers gave very interesting talks on the leading topics of the day relating to school work.

Judge W. W. Simon was asked to speak on "Good Citizenship—How It Can Be Encouraged in School and Home," giving a very instructive and entertaining address.

F. W. Winslow discoursed very ably on "How Can Fathers Be of Assistance to the P. T. A.?" Mr. Waggoner's subject was "Military Training in the School—How It Would Benefit Boys and Girls."

Superintendent J. A. Cranston, in his usual instructive way, gave a summary of all three topics, dwelling especially on keeping the boys and girls happily employed and being taught obedience in school and home; also how necessary physical training is to children.

Two selections were given by the Washington school orchestra under the direction of Miss Cornelia Elizabeth Bruner gave two amusing readings, which were greatly enjoyed by all. Mr. Garstang played selections on his fairy bells, always greatly enjoyed by those having the privilege of hearing them. F. C. Rowland rendered two solos, also appreciated by his hearers.

At the close of the meeting the refreshment committee served delicious coffee, sandwiches and cakes. The members of the association extend their hearty thanks to all participants in making the evening such a marked success.

## DELIGHTFUL LUNCHEON

Mrs. C. S. Hubbard of East Third was hostess at a cozy luncheon yesterday, her guests being Mrs. Crane of Garden Grove, Mrs. N. S. Long of Tustin and Mrs. O. H. Maryatt.

The table was decked with fragrant violets and roses and bright holly adorned the other rooms.

The afternoon passed swiftly away with jolly chat and needlework.

## W. R. C. MEETING

The regular meeting of the Women's Relief Corps will be held in G. A. R. hall tomorrow at 2 p. m. Annual election of officers.

## MACCABEES ELECT

Large Number Members Tent No. 8 Gather Monday, Have Turkey Banquet

Maccabees of Tent No. 8, Santa Ana, met Monday evening at K. P. Hall for the annual election of officers, which resulted as follows:

H. J. Dunnigan—Commander.  
F. Stansfield—Lieutenant Commander.

J. A. Hankey—Record Keeper.  
R. Best—Chaplain.  
F. G. Johnson—Sergeant.

Chas. E. Walters—Master-at-Arms.  
C. M. Scott—First Master of the Guards.

F. H. Tompkins—Second Master of the Guards.  
A. F. Schroeder—Sentinel.  
H. A. Opp—Picket.

Theo. Winbigger—Three-year term Trustee.

After election, a number of members were called upon for speeches and all responded in a happy vein. Among them were F. R. Jones, Record Keeper of Tent No. 6, Los Angeles, who gave an interesting talk, as did also C. E. Jackson, just returned from Detroit, Mich.; A. E. Bird, G. E. Peters and last but not least, W. J. Huston, the genial organizer and Supreme Tent Deputy, to whose untiring efforts in a large measure is due the prosperous condition of Santa Ana Tent No. 8, of the Maccabees and the addition of more than forty new members during the year. About sixty were present last night.

The members then adjourned to the banquet hall, where a fine turkey dinner was served, prepared by the refreshment committee.

## Artist is Popular

Mme. Manuela Budrow went to Long Beach today, where she will sing before the Ebell Society. Tomorrow she will sing at the matinee Musical Club in Los Angeles, where she will give the entire program, which will be followed by a reception.

## To Prepare Christmas Gift

The Veteran Rebekahs will have a called meeting tomorrow at 2 p. m. Every member is expected to be present to help arrange the Christmas present to be sent to the Odd Fellows Home.

## Embroidery Club Meeting

Mrs. Herbert P. Rankin was hostess yesterday to the Embroidery Club, of which she is a member, at the home of Mrs. J. H. Rankin, holly being used for the attractive decorations.

Christmas needlework, chat and music happily passed the afternoon hours and the hostesses served a delicious collation before the members took their departure.

## They Let Him Sleep Soundly

"Since taking Foley Kidney Pills I believe I am entirely cured and I sleep soundly all night," H. T. Strayghe.

Take two of Foley Kidney Pills with a glass of pure water after each meal and at bedtime. A quick and easy way to put a stop to your getting up time after time during the night.

Foley Kidney Pills also stop pain in back and sides, headaches, stomach troubles, disturbed heart action, stiff and aching joints, and rheumatic pains due to kidney and bladder ailments.

Gainesville, Ga., R. R. No. 3, Mr. H. T. Strayghe says: "For ten years I've been unable to sleep all night without getting up. Last year I tried Foley Kidney Pills and after taking one bottle I believe I am entirely cured and I sleep soundly all night."

Rowley Drug Co.

## SHOWER FOR BRIDE

Daughters of Veterans Honor Coming Nuptials of Miss Hazel Shallenberger

A most delightful surprise was carried out Monday afternoon when the Daughters of Veterans "showered" with a miscellaneous array of kitchen utensils one of their former members, Miss Hazel Shallenberger, who is soon to become the bride of Ralph Vawter, an instructor in the State Agricultural College at Davis.

The bride-to-be, together with her sister, Mrs. E. A. Bell, were luncheon guests at the home of Mrs. J. T. Wilson, 329 East Pine street, and early in the afternoon the Daughters having gathered at the home of Mrs. P. B. Glover, arrived in a body. The honoree, though naturally somewhat overcome by the unexpected event, quickly rallied and made the merry hour welcome and the afternoon hours passed quickly with chat and needlework.

At the appointed time Merle and Jean Wilson, charming young daughters of the hostess, brought in a huge basket and presented the contents, which Miss Shallenberger was required to open, with the droll assistance of Master Charles Adams, and read for the amusement of the crowd, the very clever and apropos original jokes which accompanied each package. The process proved entertaining and laughter-provoking and it was conceded that the Daughters are not lacking in a good native wit.

Delicious home made confections were served by the invading guests and at a late hour all departed expressing joyous wishes for the young bride-to-be and thanks to Mrs. Wilson, who had loaned her pretty home for the happy occasion.

Those participating in the shower though it was regretted some could not be present, were: Mmes. W. E. Ward, E. A. Bell, E. H. Darling, A. B. Gardner, J. C. Lamb, J. G. Robertson, Cood Adams, J. T. Wilson, H. S. Gordon, W. H. Thomas, George Smith, P. G. Glover, I. L. Vespigne, W. A. Sutton, Mary Holbrook, Paul Stevens; Misses: Edith Ward, Maude Powers, Bertha Belt, Merle Wilson, Jean Wilson, and Master Charles Wilson.

## "The Common Law" at West End

A big crowd welcomed the initial appearance of Clara Kimball Young in the first of her great eight-ree Selznick-made masterpieces last night at the West End Theater. The entire audience acclaimed it the best picture seen in Santa Ana for months, all wanting to know when her next Selznick picture "The Foolish Virgin" would be released.

The entire audience last night was composed of Santa Ana's most prominent citizens who enjoyed a splendid program and excellent music. Mrs. Mills of this city, pleasing with her violin numbers. She will be a permanent attraction at the West End Theater.

## Plan Christmas Meeting

The Woman's Club met yesterday at the home of Mrs. Annie H. Gale, Spurgeon street. Only a few of the members were present but what was lacking in numbers was made up in enthusiasm.

The next regular meeting of the club, December 19, will be held at the home of Mrs. James Alexander. As this is the club's Christmas meeting all members are most earnestly requested to be present and help make the afternoon a joyous one with Christmas tales.

"Would Military Training in Our Public Schools be a Detriment to the Boys of Our Country?" was the subject of a most interesting paper read by Mrs. C. P. Kryhl. Mrs. Kryhl gave a very graphic account of military training as taught in the schools of Switzerland. She said that the most vital things it taught were manliness, obedience and patriotism, and that if it did nothing more for the American boy but instill into him these much needed virtues it would be worth all it would cost to put it into the schools.

A lively discussion followed the reading of the paper.

Switzerland is a patriotic country, but it is the Swiss mother that makes

## Practical Economy

Baking powders made from alum or phosphate may be bought for a trifle less than Royal Baking Powder, which is made from cream of tartar, derived from grapes.

Alum powders are not only cheap, but they differ greatly in leavening power.

If a cheap baking powder is used for a fine cake and the cake turns out a failure there is a waste of costly materials worth more than a whole can of the cheap baking powder.

Royal Baking Powder produces the finest food, and its use therefore, results in an actual saving.

ROYAL BAKING POWDER CO.  
New York

it such, and if America ever becomes a truly patriotic country, where every man remembers that every other man is his brother, it will be because the mothers of this great country of ours have willed it to be so.

The great crying need of America today is not for more munition factories from which greater quantities of shot and shell may be sent to Europe to kill our brothers that their life blood may drench the now over-sodden battlefields, but for mothers, willing a capable, who will remember that the training for true, loyal and patriotic citizenship must begin with the babe in the cradle.

When we have such mothers, then military training in our public schools will round out and make more full and complete their labor of love.

## Amphion Circle Meeting

The Amphion Circle will meet with Miss Mayme Johnson, 925 French street, tomorrow afternoon. Members will take their thimbles for sewing for the Day Nursery.

## Altar Society Meeting

Mrs. Joseph Young will entertain the Catholic ladies at her home on Fairhaven avenue on Thursday afternoon. A good attendance is desired and strangers and those who do not belong to the Altar society are cordially invited.

## Catholic Cooked Food Sale

The Altar Society of St. Joseph's church will have a cooked food and fancy work sale on next Saturday at 109 East Fourth street, the old Rutherford millinery store, and located between Swanner & Anderson's and the new Gordon Grocery.

The ladies will have every kind of cooked food from an abundance of delicious home made bread and chicken to meat and dairy cakes, pies and salads and at reasonable prices.

In connection there will be a sale of aprons of all kinds, useful as well as ornamental, and all sorts of pretty fancy articles which will make acceptable Christmas gifts.

## Social Postponed

The Pro Bono class social to have been held this evening has been postponed on account of the death of one of the members.

## VIRGINIA GIRL

Gained 15 Pounds By Taking Vinol  
Norfolk, Va.—"I suffered from nervousness, had no appetite and was very thin. Nothing I took seemed to help me until one day a friend told me about Vinol. I have now taken six bottles and have gained fifteen pounds, have a good appetite and can eat anything."—Mattie Denning, Norfolk, Va.  
Vinol, is a constitutional remedy which creates an appetite, aids digestion and makes pure healthy blood. Try it on our guarantee. Rowley Drug Co., Santa Ana. (Also at the leading drug store in all California towns.)—Advertisement.

## JUDGE THOMAS IS SPEAKER

Judge W. H. Thomas will address the Taxpayer's League at its meeting Saturday, Dec. 9th, at 2 p. m. in the City Hall. His subject will be: "The Rights, Duties and Privileges of Taxpayers Under the Law."

## VALENCIA GROVE SOLD

C. B. Berge Co. of Anaheim, has sold the S. Y. Gathercole ten acre Valencia grove on North Cambridge St., Orange, to Chas. H. Young. This is one of the choice young groves just coming into bearing and has a very heavy crop now on the trees. The consideration was \$17,500.

STIFF, SORE MUSCLES RELIEVED  
Cramped muscles or soreness following a cold or case of grippe are eased and relieved by an application of Sloan's Liniment. Does not stain the skin or clog the pores like mussy ointments or plasters and penetrates quickly without rubbing. Linger up your muscles after exercise, drive out the pains and aches of rheumatism, neuralgia, lumbago, strains, sprains and bruises with Sloan's Liniment. Get a bottle today. At all Druggists', 25c.

## NOTICE, POULTRYMEN!

Ladies' and Children's Coats on Special Sale at Gilbert's. Every coat in stock at a great saving. Take the elevator.

Catholic ladies' cooked food sale, Saturday, 109 East Fourth, between Swanner & Anderson's and Gordon's new grocery. You'll have to hurry.

Hair restored to its natural color by the latest French method. Mrs. Cora B. Cavins, 106 1/2 W. Fourth St.

Suitorium, at your service, Phone 279.

Beautiful Xmas presents at "The Baby Shop." Open evenings. 220 East Washington.

## AMUSEMENTS

### At the Temple

The most thrilling adventures ever known to have been experienced by a country lass are those portrayed in the great screen triumph, "The Deep Purple." Clara Kimball Young as Doris Moore, in this production, has excelled all previous efforts to attain screen perfection. This wonderful stage success, which played on Broadway for over two years, gives her ample opportunity to display her ability as a screen star. It is a play that opens with a touch of human mid-night, but it ends beautifully with the sunrise of eternal love. Miss Young's biggest successes have been made in World Pictures. This play will be at the Temple Theater tonight and tomorrow night.

### At Clune's

Discovery night will be at Clune's tonight for the first time in two weeks. The booking managers promised that these professional try-outs will be very good and no doubt the theatre-goers will discover a great show. Even if they only discover two good acts out of five, the public is getting its money's worth at the admission being charged, 5c, 10c and 15c. This will not be any of the big show that is to be played every Thursday and Friday. These are merely professional try-outs. In conjunction with this show Lillian Gish, in "Children Pay," this popular star's newest Triangle play, will be seen. It is an intense drama with a moral and is a great one. Beatrice Fairfax in "The Ringer" is also featured.

### At the Princess

Have you ever noticed what happens to the people in an audience of a motion picture theater when a child or a dog comes on the screen? They chuckle, don't they? They nudge each other, too, and you know without looking round that there's a tear in the eye and a lump in the throat of every one there. That's because there's one in yours.

That's one of the reasons why everyone will love "The Sequel to The Diamond from the Sky," the \$10,000 prize four-chapter film of the Mutual Film Corporation's thirty-chapter novel play, "The Diamond from the Sky," which has been produced by the American Film Company, and which is on the Princess bill.

There is a child in it. An adorable, sunny-haired little boy, with frank eyes that smile back into yours, and small arms that creep up and pull you down close, and the jolliest kind of a little playfellow that you could ever find.

Then, too, there is a secret about this chap. Secrets always make things nicer, you know. He isn't a boy at all, though he looks like it from the place you sit in the theater. In real life "Little Arthur Blair" is Dodo Newton, and my! what fun she had making you believe she was what she wasn't.

### The Sutorium, Phone 279.

Christmas Turkey Dinner De Luxe. Reserve your tables now. Rossmore Cafe. Phone 288.

Beautiful flower dance with Red Riding Hood at Opera House, Dec. 8.

To Fullerton every 1/2 hour. Crown Stage. Round trip. 75c.

106 E. 4th St. Phone 200

## THE BEST GIFT FOR CHRISTMAS

An Edison Diamond Disc  
Music Re-Creation  
Instrument  
We have just received the largest shipment of these instruments ever brought to Santa Ana. Prices range from \$100.00 to \$250.00

Carl G. Strock  
112 East Fourth St.

## Personals

Mrs. E. B. Smith went to Los Angeles today to visit her daughter and Miss Mary Cotter, who is still very ill.  
Mrs. E. L. Morrison, Mrs. W. E. Ward and Mrs. J. H. Rankin were in Los Angeles today in attendance at the luncheon and meeting of the Federated Aid societies held at the West Adams Presbyterian church.  
Mrs. Fred Chapman passed the day in Los Angeles.  
Mrs. W. L. Tubbs was among Santa Anans in Los Angeles today.

## EXPECTING A RUSH

The postoffice department at Washington is already sending out notices to the postmasters stating that owing to the general prosperity prevalent throughout the country the number of Christmas parcels this season will undoubtedly greatly exceed those of any previous year, and all necessary arrangements should be made to handle the parcels expeditiously.

## PLAN SLAIN BABY'S FUNERAL

Funeral arrangements for Irma, 4-year-old daughter of Mr. and Mrs. J. L. Hunton of Olive, are being made today. The child died at the Anaheim Sanitarium as the result of burns received when she fell into a tub of boiling water in the yard of her parents' home.

The parents were at the bedside when the end came.

—Miss Nell Isaacson has engaged the piano studio at 805 North Broadway, now occupied by Miss Ruth Freckleton, and will continue "The Fletcher Music" method after Jan. 1st. Telephone 3954.

Doll wigs that can be combed and dressed made from combings. 106 1/2 W. Fourth St.

## THE WEATHER

Fair and colder tonight. Thursday fair, with heavy frost Thursday morning. Westerly winds.

## MARKETS

REVISED L. A. MARKETS  
(Special to the Register)  
LOS ANGELES, Dec. 6.—Bell peppers, 20; green chiles, 17 1/2; eggplant, 15; Kentucky Wonder beans, 15 and 16.

## MARRIAGE LICENSES

IN SANTA ANA ON DEC. 5  
Perry C. Heffner, 38, and Anale Lejoie, 24, both of Los Angeles.  
Arthur L. Austin, 23, and Lena R. Hunter, 21, both of Long Beach.

## DEATHS

ALLEN—In Garden Grove, Cal., Dec. 5, 1916, Mrs. Grace Alphaeda Allen, aged 41 years.  
—Funeral services tomorrow at 2 p. m. from Smith and Tutthill's.  
The deceased was the wife of H. G. Allen and had been ill about two years. She had lived in Garden Grove about five years.

Now located in our own new building at 626 North Main street. New classes Monday in bookkeeping, shorthand, English and Commercial Branches, Salesmanship and Business Spanish. Day and night classes. We cordially invite the public to call to inspect our new building.  
Intending students should register now for best results.  
Our new phone is Pacific 1515.

KABO  
(Means Good)  
The Kabo Corset Co. are celebrating their 35th anniversary and are offering special inducements to women to become better acquainted with the Live Model line of

Kabo Corsets  
There's a Kabo model made for your figure and at a price to suit your fancy, won't you come in and see them?

Mrs. Cora B. Cavins  
106 1/2 West Fourth St.

How the  
Grace of  
Youth may  
be yours

Ladies, this new supporting corset is a wonder! The Spencer Rejuveno Corset gives even the matured, stout figure the lines of beauty and style—the erect, trim carriage of youth.

Spencer  
REJUVENO  
Corset  
A Special Design for Each Customer

In this corset you unconsciously straighten up. You feel erect and easy—and you look it. Each Rejuveno is made especially to your measure and it must fit you perfectly before you can have it. At the Panama-Pacific Exposition it was awarded the Gold Medal—the highest award. It supports and reduces the abdomen in such a healthful way, and so improves the circulation that physicians recommend it.

Maternity and Surgical Corsets a Specialty

Cut Down Your Butter Bills—  
Use

CRISCO  
For Frying—For Shortening  
For Cake Making

BUTTER no longer is a necessity in cake-making.

Use Crisco instead and you can produce cakes of fine texture and great richness, cakes that stay fresh and moist longer.

Crisco is richer than butter. It is all shortening while the best of creamery butter is one-fifth water, curd and salt and costs twice as much! Crisco is odorless and tasteless, the cream of vegetable oil.

Whenever you use Crisco in place of butter in cooking add a little salt and you get the tastiness at salt prices—not at butter cost.

Crisco is sweet, delicate and of uniform consistency. It helps in the preparation of appetizing foods.

If Santa Claus were really familiar with our invisible double vision lenses, he would leave a pair in every home where double vision glasses are needed.

## WEST FOURTH ST. LOCATION IS SECURED FOR BIG SHOW

Orange County Poultry Association Will Exhibit In Store Room At 305 W. Fourth

Interest in the big poultry show to be held here December 12-16 is being manifested in all parts of the county as well as in districts outside.

The entries already in are sufficient to insure one of the best exhibits of poultry and pet stock ever displayed here.

For the convenience of those who have not had time to get in during the day, Secretary C. A. Greenleaf will keep his office at 323 West Fourth street open tonight until 9 o'clock to receive entries. The entries will close tonight.

The room at 305 West Fourth street, formerly occupied by the Clausen-Baggerly furniture store has been secured for the show. The room will be made attractive and convenient, and the work of placing it in shape for the big event will start at once.

Secretary Greenleaf, of the Orange County Poultry Association, was in Los Angeles yesterday and made arrangements for a number of special feature exhibits. Nothing is being left undone that will tend to make the show one of the most attractive displays seen in Orange county, or Southern California, for that matter.

"The Standard of Perfection," a book issued by the American Poultry Association, defining the marking of pure bred stock, and upon which the points are judged, is in the hands of the secretary and is available to anyone interested.

## HARRY LAUDER BUYS SCOTCH ESTATE WITH COIN MADE IN U. S.

LONDON, Dec. 6.—Harry Lauder, who has amassed a fortune mostly by amusing the American public, and who never willingly lets any of it go, let loose of a goodly sum today when he bought the famous estate of Glen Banter and the lands of Ballimore, comprising more than 14,000 acres. Glen Banter belonged to MacBrayne, the ship owner of Glasgow.

The mansion house on Lauder's new estate stands about four miles from the pier at Oban. Water, hills and pasture land are included within the boundaries of the estate. Lauder will be able to paddle around in about four miles of Loch Eyk, which falls into his possession with the land.

## WATER POLLUTED, SALE PERMIT IS REVOKED

SACRAMENTO, Dec. 6.—The State Board of Health today revoked the temporary permit granted the West San Joaquin Valley Water Company to sell water to the town of Los Banos. The water supply was found to be polluted and dangerous.

## JANUARY 8 WILL BE BUSY DAY AT CAPITOL

SACRAMENTO, Dec. 6.—Monday, January 8, will be a mighty busy day at the state capitol. Not only will the legislature start work on that day, but the thirteen Democratic presidential electors will meet and cast California's votes for Wilson.

**SUBSCRIBERS, ATTENTION!**

## U. S. PRESTIGE IN SCANDINAVIA NEVER HIGHER THAN NOW

Eyes of Swedes, Norwegians, Danes Turned to Preparedness of Yankees

BY WM. PHILIP SIMMS  
(United Press Staff Correspondent)  
CHRISTIANIA, Nov. 10 (By mail).—If the Swedes by stretching things a bit can be called pro-German, the Norwegians, without stretching things at all, are pro-Ally.

Norwegians and Swedes are not particularly fond of each other and in the recent Neutral Alliance it was more a feeling of self-preservation than anything else which brought about the union of Sweden, Norway and Denmark.

For here one does not hear much talk of a Beautiful Peace in the near future in which all the nations of the world will have a hand. Nor does anybody seem to believe that this is the last great war; or that after this war is over little nations will be safe from molestation by the big.

**Preparedness Only Remedy**  
Rather the feeling is that "preparedness" is the only remedy which for a long time to come will prove effective. All eyes are on the United States to see what steps she is going to take along these lines for, whatever people may say in Europe or at home, the prestige of the United States has not suffered in Scandinavia. Wherever I have been in Norway and Sweden—and I have been twice in Norway and three times in Sweden since the war—only good words were heard of America. Americans here say the American nation was never more highly respected than now.

So now Swedes, Norwegians and Danes are watching the United States to see what lines her "preparedness" program is to take.

Norwegians welcome co-operation with Sweden and Denmark. Already three general meetings have been held—one in Sweden, the first; the second in Denmark, and the third here. There will be others as occasion demands.

But as to just what transpired at these meetings no one is yet absolutely certain despite the official communiques which were handed out after each. This much, however, is certain:

**In Neutral Pact**  
Norway, Sweden and Denmark have agreed to act together on all questions affecting their neutrality.

To take joint steps as regards black lists promulgated by belligerent powers.

To inquire jointly into commercial espionage, or acts whereby foreign countries come into possession of trade secrets of the three Scandinavian countries.

To establish a working basis for commercial co-operation after the war.

To reach an agreement concerning Scandinavian shipping, the effects of the allied blockade and of German U-boats.

To agree on steps necessary to maintain their neutrality.

This much the three countries are known to have discussed. But it is

generally believed that they went further than that and became to all intents and purposes allies for purposes of defense in the future.

A Swede told me:

**Practically Allies**  
"If the Scandinavian countries are to remain free, they must, absolutely, come together and agree on a policy of mutual assistance in time of trouble."

This seems to be the general feeling here. People seem of the opinion that the world will remain topsy-turvy for some years to come, and that weaklings among nations are a menace to themselves and a temptation to their neighbors. Of course nobody talks of an aggressive alliance here. But neither Swedes, Norwegians nor Danes want to be caught out on a limb.

So it happens that Norwegians, Swedes and Danes with no particular friendship for each other, may be expected to stand as one in the future.

## GIRL'S CLUB PUTS BAN ON AUTO COURTSHIPS

SMITH CENTER, Kas., Dec. 5.—There is widespread approval and sympathy among young men in many sections for the girls here who formed the Cupid association to discourage motor car courting.

Among other claims of the girl members of the newly formed association is that the motor car has taken away all the chances of old-time courtship, that so much attention is taken in the manipulation of the car, and that they are sick of the talk of carburetors, spark plugs, tire mileage, the speed a car can make and how many miles per gallon of gasoline this, that or the other car can do.

The men are becoming less romantic than in the days of Old Dobbin when one could drop the lines over the dash-board and spoon to the heart's content without being in any danger of getting a broken neck as the result of skidding into a ditch.

Hundreds of letters are being received by Miss Jeannette Purcell, president of the association. Without exception, the writers indorse the attitude of the young women toward hurried, feverish courting, and each disavows the ownership of anything faster than a gentle horse.

The letters come principally from eligible young men in Missouri, Texas, Oklahoma and Kansas.

## WOMAN GROWS HERONS TO GET AIGRETTES

SHEFFIELD, Dec. 6.—Women crane-drivers are employed in a great steel works here. They wear masculine dress of chocolate brown with blue trimmings.

**Chesterfieldian**  
In admitting in court that her husband had a habit of beating her, a woman asserted that this function all was was performed in a gentlemanly way.

But was it ladylike for her to betray her conjugal Chesterfield even to this extent?

The volume of the saline matter in the ocean is a little more than 4,800,000 cubic miles, or, according to the United States Geological Survey, Department of the Interior, enough to cover the entire surface of the United States to a depth of 8,500 feet.

Have you something to sell? Use the Register's classified columns.

## P. T. A. PROJECT FOR RUNNING THEATER IS DROPPED

Inability to Finance the Deal Causes Plan to Be Given Up For Present

Having found it impossible to finance the project at this time, the Parent-Teacher associations of the city have given up the plan of taking over the Lyric Theater.

A few weeks ago it was decided to undertake the operation of that theater as a place especially designed for children. It was proposed to put on educational films, and possibly conduct some instruction in geography and other subjects by means of the movies.

The plan that was outlined was to secure subscriptions of \$25 each from members of the associations. When it came to raising the funds that were necessary, difficulty in financing the deal was encountered.

Although the attempt to finance the deal has been given up, the association officers are still hopeful that some of the theaters will take up the project and give it a trial.

## Unclaimed Letters

Letters addressed to the following parties remain unclaimed for in the postoffice at Santa Ana, Cal., for the week ending December 2, 1916:

Miss Dorothy Anderson, Mr. and Mrs. Clarence Barclay, Mrs. J. A. Bell, Mrs. Leatha Busch, K. L. Blunt, B. W. Brink, Corwin M. Butterworth, Joe Combs, Mrs. Qezy Cook, Pat Dyher, Mrs. P. J. Edwards, Ruben Edwards, W. L. Gray, Mrs. C. F. Griffin, Mrs. H. B. Harper, James A. Haynes, James Heaton, Mrs. Edith E. Hilton, Arthur Johnson, Mrs. D. P. Kellogg, Mrs. F. R. S. Mildon, Mrs. Mildred Moore, C. Mueller, Violet Nicholson, Frank Reid, Mrs. E. E. Riley, Mrs. Frank Steen, Victor Sturte, J. C. Trickey, Mrs. Fred Simmons, Mr. and Mrs. Jake Wood.

Sr. Sixto Aleman, Sr. Biliberto Croso, Miss Carley Carlos, Sr. D. Piedad M. Del Campo, Senor Florentino Chabes, Sr. Francisco Y. Cruz, Sr. Rafael Espinosa, Joaquin Frenbar, Senor Jose Gomez, Mr. Paul Gonzalez, Sr. Dionicio Guadalajara, Sr. Ambrosio Hernandez, Mr. Ponposo Jauregue, Emiliano Madrigal, V. E. Marin, Sr. Ramon Mendoza, Mrs. Senobia Mirele, Sr. Jose Pimentel (2), Sr. Antonio Ramirez, Sr. Marcelino Ramirez, Senor Crescencio Romero (2), Sr. Dn. Cenovio Ruiz, Miss Senaida Salazar, Senor Antonio Tomas, Sr. Pedro Vaca, Mr. Viero.

If the above are not called for in two weeks they will be sent to the dead letter office. When calling for the above, please say "Advertised" and give date.

## DEALS INVOLVING \$45,000 WILL MOVE THREE FAMILIES

Orange Ranch and Santa Ana Residence Properties Pass to New Owners In Quick Succession

Three families will move tomorrow into new homes almost simultaneously as the result of deals just concluded, and which totaled about \$45,000.

W. D. Barker, who has resided at 432 South Broadway for many years, traded this property in on the three-acre home of Nelson McArthur at 2409 North Main street. The consideration for the latter property was \$10,000, Barker paying a cash difference. It is the second house north of the Southern Pacific crossing, on the east side of Main street. The property extends from Main street to Bush street.

McArthur at once got busy on a deal with Guy Richards for the latter's ten-acre Valencia orchard on East Chapman street, Orange, and consummated a deal by which Richards came into possession of the Barker residence on Broadway. The Valencia grove consists of ten acres and McArthur took it at \$29,000, or \$2900 per acre. Richards recently purchased the Bergman & Obar market here and intends to make his home in this city.

The shifting of families will commence tomorrow, the Barkers moving to the McArthur place, the latter going to the Richards ranch in Orange and the Richards moving to the Barker cottage here.

## PUT CREAM IN NOSE AND STOP CATARRH

Tells How To Open Clogged Nostrils and End Head-Colds.

You feel fine in a few moments. Your cold in head or catarrh will be gone. Your clogged nostrils will open. The air passages of your head will clear and you can breathe freely. No more dullness, headache; no hawking, snuffling, mucous discharges or dryness; no struggling for breath at night.

Tell your druggist you want a small bottle of Ely's Cream Balm. Apply a little of this fragrant antiseptic cream in your nostrils, let it penetrate through every air passage of the head; soothe and heal the swollen, inflamed mucous membrane, and relief comes instantly.

It is just what every cold and catarrh sufferer needs. Don't stay stuffed-up and miserable.—Advertisement.

## MAN IS RESCUED FROM DROWNING, DISAPPEARS

CALEXICO, Dec. 6.—John Boyle, a rancher residing near the Alameda schoolhouse, rescued the man who fell into an irrigation canal and rode to Calexico for medical assistance. The stranger appeared to be practically dead and Mr. Boyle left him lying on the bank of the canal. He told a neighbor to take charge of the body while he went to get a doctor.

The neighbor went to the scene and the man was gone. A thorough search of the neighborhood failed to discover the rescued man. The ranchers in the vicinity are wondering whether the man is at the bottom of the irrigating canal again, or wandering in the desert. According to Mr. Boyle, he was uncertain whether the stranger fell in to the canal or walked into it deliberately, as the rancher was some distance away when he first noticed the strange man.

To Anaheim take Crown Stages every 30 minutes. Round trip, 50c.

LOST—On Fourth St., bunch of keys. Please return to Victor Yorba at Lacy's Stables.

## LAST REPORT IS GIVEN COUNTY HIGHWAY BUILDERS

Commission Shows 131.14 Miles Built At Cost of \$9914 Per Mile

Three years and a half after starting actual construction work, the Orange County Highway Commission, through Secretary G. A. Whidden, today filed its final report with the Board of Supervisors, showing 131.14 miles of good roads completed, at a cost of \$1,298,829, or an average cost of \$9914 per mile.

During the existence of the County Highway Commission it received and expended \$1,411,076.63, part of that amount being from private donations, some of it from the road maintenance fund and the bulk of it from the bond issue.

The bond issue and premium made \$1,298,829; donations, \$15,662.08; from county, \$83,312.24; other sources, \$7600.

The County Highway Commission was first appointed on March 8, 1910. M. M. Crookshank, C. C. Chapman and Richard Egan were the first board. Chapman resigned within a month after his appointment and W. H. Burnham of Orange was appointed. D. C. Pixley of Orange succeeded Burnham on December 12, 1912. S. H. Finley and W. T. Newland succeeded Crookshank and Egan, and when Finley resigned to become chief engineer, succeeding D. S. Halladay, R. J. McFadden of Anaheim was appointed. N. T. Edwards of Orange succeeded D. C. Pixley on June 2, 1915. The present commission is McFadden, Edwards, Newland.

As suggested in the commission's report, the report will be checked over by the secretary, G. A. Whidden, and by W. S. Gregg, county expert. Its acceptance by the board will follow and that will mean that the commission goes out of existence.

In closing its report, the commission urges the Board of Supervisors to organize a road department for the maintenance of good roads, a competent engineer to be placed in charge, "with authority to care for and maintain the roads free from any local or personal obligations."

The report will be published in full by the Register.

## CZAR FERDINAND OF BULGARIA TAKES PART IN 4-REEL THRILLER

AMSTERDAM, Nov. 15.—(By mail.)—Czar Ferdinand of Bulgaria is a movie actor. A four-reel film running today in Hamburg movie theaters, shows the monarch of real life doing the work of a monarch of the stage.

The drama is written around Bogdan Stifimoff, a Bulgarian peasant of Macedonia falsely accused of murdering Stojescu, his Rumanian neighbor. The drama, full of thrills, shows Stifimoff in his escape to America where he becomes manager of a munition factory.

When the "world-war" breaks out, Stifimoff refuses to continue in the munition business and embarks on a Swedish steamer for Germany. The steamer is captured by an Italian warship but the hero escaped overboard. He is rescued by a German submarine and taken home. He throws himself at the feet of the real Czar Ferdinand, is pardoned, takes his place in the army and performs many feats of valor.

The Czar pays his part remarkably well. He is seen walking in the park at Sofia when Stifimoff throws himself at his feet. Here the royal actor registers a good surprise and talks to his subject searchingly as if desirous of every detail. Then the Czar is next seen pinning a medal on the hero's breast and giving the royal salute.

Unlike most movie thrillers, the picture was not made in California, Arizona or on the hills of the Hudson. But it shows a real U-boat, aeroplanes and warships, soldiers and battles and a real—nct reel—king.

If you have beauty, we take it; if you have none, we make it. Hickox Studio. Christmas photos.

Going to Los Angeles take Crown Stages every 1/2 hour, round trip \$1.00.

## NOTICE TO CONTRACTORS

Notice is hereby given, that sealed bids will be received by the Board of Trustees of the City of Santa Ana, California, up to the hour of 4 o'clock p. m., on the 21st day of December, 1916, for the construction of crushed rock shoulders to be constructed on that portion of West Fifth Street from Baker Street on the East to a point on the West side of the street according to plans, and specifications and profiles and cross-sections prepared by the City Engineer and adopted and approved by the Board of Trustees of the City of Santa Ana, California, on the 4th day of December, 1916, and which remain on file in the office of said City Engineer and are open to the inspection of bidders.

Each bid must be in duplicate and be accompanied by a verified and cashed check in the sum of ten per cent of the amount of bid, such check to be made payable to the President of the Board of Trustees of the City of Santa Ana, California, as a guarantee that if the bidder is successful will enter into a contract satisfactory to said Board; and in addition thereto the successful bidder will be required to file a good and sufficient bond for the faithful performance of the contract and for the payment of laborers, material and supplies entering into said contract; the successful bidder will also be required to file with the Board of Trustees a good and sufficient bond to the effect that they will not permit or require any workman to labor more than 8 hours per day upon said contract and that they will compensate each laborer at a rate not less than \$2.00 per day for eight hours' work, and for the insurance of employees in accordance with the provisions of Chapter 176 of the Statutes of California of 1912.

The Board reserves the right to reject any and all bids, not deemed advantageous to the City of Santa Ana. Bids shall be deposited with the City Clerk at the City Clerk's office in the City of Santa Ana, California.

By order of the Board of Trustees of the City of Santa Ana, California, made the 4th day of December, 1916.  
E. L. VEGELY,  
City Clerk and ex-Officio Clerk of the Board of Trustees of the City of Santa Ana, California.

# Gas and the High Cost of Living

We hear a great deal these days about the high cost of living. And no one who pays the bills for a family can deny that food, clothing, drugs and other commodities cost much more than they did a few years ago. Yet there is one great modern convenience which costs no more, which is actually cheaper than formerly: that commodity is GAS.

While it is a fact that all of the labor and material used in the gas business have increased in price, the Gas Company cannot as the grocer, mark its prices up to follow the rising costs. It is, indeed, only by practicing the most efficient methods of operation that the Gas Company is able to break even these times.

Gas is no longer a luxury; but is, in fact, the cheapest commodity the householder can buy. Realizing this he should use it in the place of all other fuels to cook his meals and to light and warm his home. This is what the Southern Counties Gas Company has done for the cities and municipalities in Southern California. We are distributing gas in the following municipalities:

Santa Ana  
Tustin  
Orange  
El Modena  
Garden Grove  
Huntington Beach  
Newport Beach  
Anaheim  
Placentia  
Fullerton  
Buena Park  
Brea  
La Habra

Whittier

## SUMMONS

IN THE SUPERIOR COURT of the State of California, in and for the County of Orange.

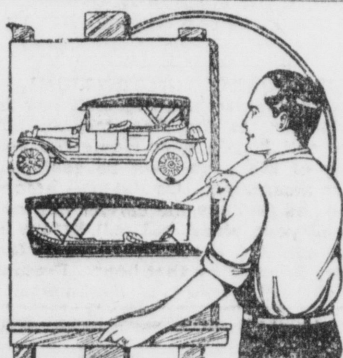

CYRENA H. PILLMORE and J. C. PILLMORE, her husband, Plaintiffs,

vs.  
FRANCIS E. CRAWFORD and ELSIE V. CRAWFORD, his wife, C. C. Foster, National Bank of Pasadena, a Corporation, Harry M. Dexter, F. A. Gray, S. E. McPherson, G. W. Short, Martha A. Frost, Griffith Lumber Company, a Corporation, Ernest William Augustine and Theresa Augustine, his wife, Ernest Bagley, S. Tahayama, H. C. Woodward, Continental Refineries, a Corporation, Planet Paint Company, I. F. Boyce, Defendants.

The People of the State of California send greetings to Francis E. Crawford and Elsie V. Crawford, his wife, C. C. Foster, National Bank of Pasadena, a Corporation, Harry M. Dexter, F. A. Gray, S. E. McPherson, G. W. Short, Martha A. Frost, Griffith Lumber Company, a Corporation, Ernest William Augustine and Theresa Augustine, his wife, Ernest Bagley, S. Tahayama, H. C. Woodward, Continental Refineries, a Corporation, Planet Paint Company, I. F. Boyce, Defendants.

YOU ARE HEREBY DIRECTED TO APPEAR and answer the Complaint in an action entitled as above, brought against you in the Superior Court of the County of Orange, State of California, within ten days after the service on you of this Summons, if served within this County, or within thirty days if served elsewhere. And you are hereby notified that unless you appear and answer as above required, the said plaintiff will take judgment for any money or damages demanded in the complaint, as arising upon contract, or said plaintiff will apply to the Court for any other relief demanded in the complaint.

Given under my hand and the seal of the Superior Court of the County of Orange, State of California, this twelfth day of November, A. D. 1915.  
(Seal) W. B. WILLIAMS, Clerk.

## A GOOD TOP ADDS VALUE

BOARD OF SUPERVISORS

**WALTER EDEN IS**  
**REGISTRAR OF**  
**TITLES HERE**  
**SALARY \$100**

Land Act Business Reaches  
Point Where Naming Of  
Official Necessary

Tustin Township Is Declared  
Formed, McCharles Is Ap-  
pointed Justice

Mrs. Justine Whitney, county recorder, has appointed Walter Eden, who is now deputy district attorney, to the position of deputy registrar of land titles, a position provided for under the Torrens Land act. The appointment by Miss Whitney was confirmed by the Board of Supervisors and Eden's salary was fixed at \$100 per month.

Although the Torrens Land act has been in effect in this county for nearly two years, no deputy was needed to look after the work until the present time. Recently there has been an increased activity in the Torrens work here, two or three firms of attorneys having sent out solicitors to get property owners to put their lands under the act. The activity of the attorneys who have taken up this line of procedure has resulted in one action alone involving directly eighty pieces of land, and indirectly every piece of land adjoining each of the eighty pieces.

Since the state stands back of the decrees that are given in the land act cases, it was found that searches must be made. Walter Eden is admirably fitted for the position. He is an attorney of years of experience and has also had many years of experience in the title business.

Before becoming a deputy district attorney he was connected with a local title company.

Eden has notified District Attorney L. A. West that he will resign his position as deputy district attorney. An understanding has been reached whereby Eden will remain in the district attorney's office until January 1. On that date Eden will open an office of his own and will conduct his private practice in connection with his work as deputy registrar of titles.

**Vote Canvassed**

Today the vote that was cast in the Santiago Storm Water District was canvassed, the returns being H. A. Graber, 106; Ed Moore, 104; H. C. Moberly, 107; C. G. Jern, 70; Fred Klaher, 57; Philip Truby, 6. The first three named were declared elected.

**Again Continued**

Further hearing upon the petition of Brea for incorporation was continued to December 19.

**New Township**

This morning an order was passed forming the new township of Tustin out of the three Tustin voting precincts. The entire territory comes out of Santa Ana township. Upon the motion of Supervisor Leck, D. L. McCharles was appointed justice of the peace, his services to commence on January 1.

**TULARE CITRUS FAIR**  
**TO OPEN TONIGHT AS**  
**WILSON GIVES SIGNAL**

VISALIA, Dec. 6.—With the greatest array of products ever assembled in this section of the state, and assurances of a record breaking attendance, opening of the seventh Tulare County Citrus Fair is scheduled for 8 o'clock this evening, when President Wilson, in Washington, will press a button, electrically illuminating the fair grounds. The fair will continue until next Wednesday, with special attractions every afternoon and evening.

Every town and community in Tulare county and the citrus districts of Kern and Fresno counties is represented in the exhibits, and in the competition for the Sweepstakes premium. Chambers of commerce, boards of trade and other booster bodies, and citrus fruit growers' organizations take a prominent part in the exhibits. From a standpoint of quality of products and artistic skill in featuring of displays, the present fair is the most diversified showing of horticultural and agricultural possibilities of the San Joaquin valley ever assembled. The displays of deciduous fruits are second only to the citrus displays.

Attractive cash prizes, silver cups and other trophies are offered for the best showings in the different fruits, in manual training work and in livestock entries.

A poultry show, livestock show, baby show, automobile show and pet stock show are other features, while band concerts, high diving girls, a "joy zone" and dancing are other regular features each day.

**FEIJOA ON MARKET**

**AT OCEANSIDE NOW**

OCEANSIDE, Dec. 6.—The feijoa, a native fruit of Guatemala, made its first appearance on the local market this week and is pronounced by many as one of the most luscious tropical fruits ever tasted, while there are others who have just the opposite opinion.

This fruit was introduced in America about eight years ago through Frank Carpenter, of Escondido, who was sojourning in Central America at the time and from his glowing description, B. Marks, a capitalist of Los Angeles, who owns considerable fruit land in the vicinity of Escondido, became interested and ordered enough trees to set out one acre and now owns perhaps the largest orchard of the kind in the United States.

During the freeze a few years ago when orange and lemon trees shriveled before old Jack Frost, the feijoas in the same locality escaped with no

## Coin Purses

A Coin Purse is in use constantly—therefore select a good one. We have almost every desirable style including English Pig Skin Purses which are now hard to secure. Every purse we show is well made, securely sewed and with strong clasps.

50c to \$2.50

## "Fitall" Tourist

Roll-up

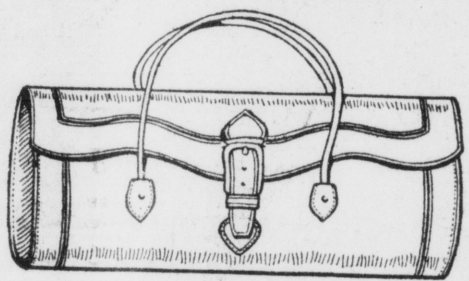

This is the latest idea in tourist roll-ups. Made of cravatette with adjustable loops to fit any toilet accessory you wish to carry. Being water proof, you may carry liquids with perfect safety. Fitall comes in a variety of sizes and colors; gray, plaid, brown, etc. Prices

\$1.50 to \$3.00

## Music Bags

The increased cost of leather justifies a much higher price than what we ask for these high grade Music Bags. But we purchased them before the cost increased. Hence you get the benefit. Several styles—some like the illustration—others that open wide so as not to bend the music.

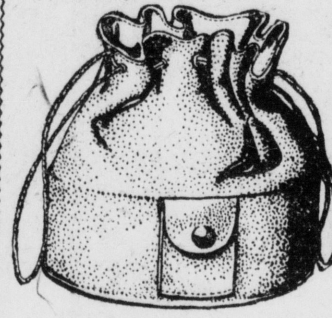

From \$4.00 to \$6.00

# Gifts of Leather

A good article of leather is a constant satisfaction—both to the giver as well as the receiver. Our leather goods are all high grade and genuine. You can depend upon any leather article you select here to give the longest wear and to look good until it is worn out. We have made a splendid selection and we know you will find here a number of leather articles that you will be glad to give to your very best friend. In addition to those here described we have a great many leather articles you'll do well to see before buying.

## Collar and Cuff Bags

Every man needs a good Collar Bag. We have many styles. The one illustrated is of Red Morocco leather, lined with pink silk, with cord and pocket for collar buttons. Price \$3.00. Others as low as 75c

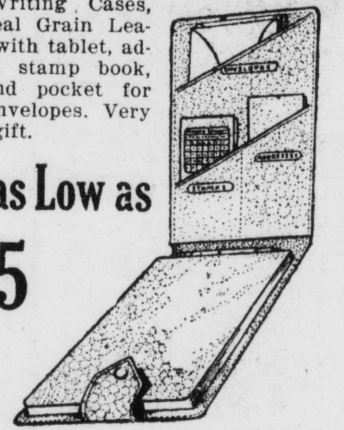

## Cigar Cases

Every smoker prizes a good Cigar Case. But like a purse, cigar cases should be of genuine leather, with seams securely sewed. There are no better Cigar Cases than those we offer. Each is genuine leather and each is the greatest value for the price. We have the popular telescope styles as low as 60c. The more elaborate ones like the illustration up to \$4

## Tourist's Cases

Tourist's Writing Cases, made of Seal Grain Leather, fitted with tablet, address book, stamp book, calendar and pocket for cards and envelopes. Very acceptable gift.

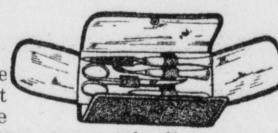

Prices as Low as

\$1.75

## Manicure Sets

In Leather

Our line of Manicure Sets is the most complete we have ever had. The cases are mostly limp suede, while the implements are the finest steel with French Ivory and Pearl handles. Decidedly elegant gifts that must be seen to be appreciated. Prices

\$3.25 to \$10

damage whatever, which shows that it is a hardy and thrifty plant and will do well in other sections where the climate is not nearly so mild as it is in sunny Southern California.

The American name for the feijoa is "pineapple loquat." C. E. Boyle of Escondido, who makes regular trips to Oceanside with various fruits, states that the feijoa makes delicious jelly and he expects to have no difficulty in disposing of the entire crop as soon as the people of this section realize its many merits.

For Long Beach take Crown Stages every hour.

**BREAD MAKING COST**  
**AT PATTON IS HIGH,**  
**SAYS HOSPITAL CHEF**

SAN BERNARDINO, Dec. 6.—Based on contract prices, it costs 5 1/10 cents per loaf of 24 ounces to produce bread at the Southern California State Hospital at Patton. Chef T. J. Wells announced after an investigation into the cost of foodstuffs. If the hospital were paying the present prices for the ingredients, 24-ounce loaves of bread could be made for 7 cents each. These figures are based on one

day's production of bread by the hospital bakery—1030 loaves of 36 ounces and 155 loaves of 24 ounces. This is the consumption of the 2600 patients and hospital staff. In making this amount of bread, Wells says he used nine barrels of flour at \$7.30 a cwt., fifty pounds of lard at \$18.45 a cwt., thirty-five pounds of sugar at \$6.51 a cwt., and eighty-five pounds of potatoes at \$1.87 a cwt. The labor is figured at the following salaries for three men, \$75, \$58 and \$50 a month. These figures do not include the costs of wrapping paper, sale and distribution, such as commercial bakeries meet.

**FALLS AGAINST DOOR,**  
**FRACTURES HER NOSE**

ORANGE, Dec. 6.—Miss Mary Dickson sustained a broken nose at her home when she fell against a door. Miss Dickson had been ill and suddenly fainted. She struck her nose on the door, fracturing it.

## RAFFERTY TELLS JAPAN TRAVELS AT PRESENT DAY CLUB

Tourist Shows Art Objects  
and Souvenirs to Add In-  
terest to Talk

A "capacity house" can always be counted upon when Fred Rafferty is announced to speak upon his travels in foreign lands, and most of the members of the Present Day Club were out at the meeting on Monday night to hear Mr. Rafferty give his experiences in Japan. The paper was of exceptional interest because based on first-hand observation. A large number of art exhibits and souvenirs were displayed, adding greatly to the interest of the account of the ways of living in the Orient.

The Orient is a large part of the world, said Mr. Rafferty, and we journeyed thousands of miles and only saw a small portion of it. We visited the Philippines, China, Japan and Hawaii. In talking of Japan and the Japanese it is extremely difficult to know where to begin and when to stop. There is so much of interest and so much to learn about this wonderful country and wonderful people

that books can be written without exhausting the fund of legendary, historical and descriptive information one acquires, if he investigates them with receptive eyes and ears and an inquisitive tongue.

### Tells Trip on Liner

We journeyed across the Pacific in a Japanese liner, manned almost entirely by Japanese. Everything was first class, and of special enjoyment were the evening entertainments on shipboard given by the Japanese, which gave an insight into Japanese customs and manners, preparing one for the feast to come later.

On arriving in Japan one has the opportunity to observe formal Japanese greetings. There is no hand-shaking or kissing whatever. Just a series of very low bows by both parties—the number seeming to be somewhat in accordance with the heartiness of the greeting or the rank of the person greeted. Three or four of these salutations were common. Once we counted seven. They are an extremely courteous and polite people, even to the formal language used in addressing each other. Their salutations are so profound as to be embarrassing, as when we were leaving a certain shop and turned to give our adieus we found the proprietor on his hands and knees bowing his head to the floor in a most formal obeisance. It gave us a peculiar sensation as we could hardly return it in like manner.

### Liked Jinrichishas

The jinrichishas are the usual mode of locomotion for short distances all through Japan. We grew to like them very much with one exception, that they almost entirely prevented conversation when en route, as they always proceed single file. This was a decided deprivation at times as we whirled along and wished to call each other's attention to some interesting sight. There are many of these richsha men in Japan. They are fleet of foot and have much endurance but are usually very short lived as a result of over-exertion and over-heating which cause tuberculosis.

The speaker's description of the manner of dress was very interesting. The Japanese have no real pockets in their clothes, but frequently carry things in their capacious sleeves. Men and women wear kimonos, which are folded in front and held in position by the sash or obi, and the outer fold is always brought over to the right. Foreigners who attempt to wear a kimono often give amusement to the Japanese by folding it to the left side, which is only done in dressing a body for burial. Coolies wear a loose blouse instead of kimono.

### Houses Simple

The houses are for the most part simple affairs, just a few posts supporting a heavy, tiled roof with a plain raised floor covered with mats. Unless used more or less by foreigners no Japanese house has any chairs, tables or beds. Everyone sits on his feet on the soft mats and uses a padded quilt as a mattress on the floor on which to sleep. The method of dress, the absence of furniture and the padded mats are all related and fashioned one to the other, so that it is difficult to change one without changing all. For this reason European customs and costumes are very slow of adoption. Heavy shoes and the legs of chairs would soon ruin the soft mats and European clothes are very uncomfortable when one sits on the floor.

Mr. Rafferty mentioned a number of laughable business signs which he saw displayed, resulting from a limited knowledge of the English language, the

SCENE from "The Common Law" by Robert W. Chambers, the great eight-reel Selznick-made masterpiece featuring Clara Kimball Young, playing at the West End Theater, tonight, tomorrow and Friday.

such as the following: A lawyer wishing foreign clients ends up his business card thus: "I can manage the affairs without any affliction of an English." A laundry sign reads: "We most clearly and carefully wash our customers with cheap prices as under—Ladies, eight yen per hundred; Gentlemen, seven yen per hundred." Fuji beer receives the following endorsement: "The efficacy of this beer is to give the health and especially the strength for stomach. The flavour is so sweet and simple that no injure for much drink." Perhaps the most ominous sign displayed was at a doctor's office, which read: "Specialist for the Decease of Children."

### Many Children

The streets are full of children. Many have to work and all have to attend school. Babies are always strapped on the back, never carried in the arms except for the first month or two. It is said that Japanese babies never cry. We found it not quite true, but nearly so. No matter when a child is born it is spoken of as a year old on the first day of the new year; but no matter on what day it was born, if a girl its birthday is always celebrated on the 3rd of March; if a boy on the 5th of May.

Japan has a very complete system of railroads, government owned, as well as extensive electric railways. The country is very mountainous, so much so that only 12 per cent is under cultivation. But this amount is made wonderfully productive. Rice is the most important crop and a special

god is supposed to guard the crops. This god is represented in the form of a fox.

### Describes Tea Rite

The tea ceremony, which was inaugurated seven hundred years ago by a Buddhist priest as an antidote to the use of stronger drinks, was interestingly described, and tea ceremonies are very popular. But to foreigners the tea ceremony is very lengthy and almost meaningless. It has now lost practically all of its religious significance. The city of Kyoto, with a population of over half a million people, is the best city in which to observe the customs and occupations of the Japanese. Mr. Rafferty's description of life in this city, the amusing incidents that occurred in their wanderings about the city, formed an exceedingly interesting part of his paper. The Japanese make several forms of art goods that are products of their own peculiar industries, for example, their lacquer wares, their cloisonne, damascene, and a form of pottery known as Satsuma ware. They also manufacture wonderful silk goods, porcelain, bronze and metal work, carved ivory and tortoise shell. Many of these products were shown by Mr. Rafferty at the close of the paper. The paper closed with a description of the noted old temples of Kyoto. Temples and shrines are very numerous all over Japan, over 250,000 being mentioned in the official guide book.

**H-O**

THE ONLY STEAM-COOKED OATMEAL

20 MINUTE BREAKFAST

If you simply order "oatmeal" or "rolled oats," you may be given the ordinary kind in which the original flavor of the oats has been lost in the excessive cooking necessary to make the food digestible. Insist, then, upon "H-O,"—the only steam-cooked oatmeal—a process which retains all the natural delicious flavor of the oats, and makes it ready for the table with only 20 minutes cooking. At all grocers.

**BURBANK RANCHERS OBJECT TO DOG TAX**

BURBANK, Dec. 6.—Asserting that dogs were practically their only police protection, and as such should be exempt from taxation, the ranchers in the vicinity of Burbank appeared before the city trustees to ask that ranch dogs should not need licenses.

H. W. Rouscup, who owns a large tract of land near Burbank, said that a yearly dog license was unjust inas-

much as the animals were not merely pets as town dogs are, but are as necessary an adjunct to a farm as a horse or a cow.

"Our dogs are to us what policemen are to town people," said Mr. Rouscup. "They form the only protection we have against chicken thieves, night prowlers and rodents."

The council members promised to look up the law on the matter, and if possible, to accede to the ranchers' wishes.

**INCORPORATION IS FAVORED AT GROVE**

**Union of Two Booster Bodies Looms; Banquet Planned; Library Discussed**

GARDEN GROVE, Dec. 6.—The Business Men's Association met in regular business meeting Monday night, President Cloyes and Secretary Davidson in their places. The spirit of good fellowship and co-operation was very much in evidence. Every man present was enthusiastic in his suggestions and discussion of the various questions that were introduced to the meeting for the betterment of the town and community.

After reports of committees and routine business the question of consolidating the Improvement Association and Business Men's Association was brought before the meeting.

After thoroughly discussing the matter the question was laid on the table for one month, at the end of which time definite action will be taken.

**Unit on Banquet**

The banquet which has been promoted by the Improvement Association was discussed and a committee consisting of P. M. German and Dr. Young was appointed to co-operate with the Improvement Association, thus uniting two organizations in the arrangement for one of the strongest and best gatherings of business men, visitors and citizens of the community that has ever been held in Garden Grove. The purpose of the banquet will be to celebrate the lowering of the P. E. tracks and other recent improvements. The matter of a public library was discussed and a committee consisting of Simon Horwitz, Dr. Stone and Dr. Young was appointed to take the matter up and report at the next meeting.

**Discuss Incorporation**

The incorporation of Garden Grove was also discussed and from the enthusiasm manifested it is evident that the sentiment in favor of incorporating is rapidly growing, so much so that a committee was appointed to outline the territory which would be suggested to the people as being the incorporated district and if 75 or 80 per cent of the people residing within that district desire incorporation steps will be taken at once to put Garden Grove on the map as one of the most thriving little cities in the country.

Dr. Stone and Kellar Coplin were admitted to membership. The motto and watchword of the Business Men's Association is "Every man lifting and all at the same time." The date of the banquet is Wednesday, December 13, and the banquet will be held at the Y. M. C. A. hall.

**Grove Notes**

Everett King new editor of the Plaindealer in Anaheim, was a visitor at the home of Mr. and Mrs. P. M. German Saturday, renewing acquaintances. Both families lived in the same town in Dakota over twenty years ago.

**GEORGE NIXON IS FRIEND OF PENN'S THICK**

**Well-Known El Centro Tobaccoist Endorses Famous Plug Tobacco**

Men who know tobacco chew Penn's Thick for the genuine enjoyment it gives them. One of these is Geo. Nixon, popular retail tobaccoist of El Centro, Cal., and what he says is worth reading. Here it is:

"I have used different tobaccos for years, but one year ago I tried PENN'S THICK Chewing Tobacco and have been using it ever since. I have recommended the brand to several of my friends, and I can truthfully say that all of them are using PENN'S THICK Chewing Tobacco. I consider PENN'S THICK the greatest quality plug on the market."

Penn's Thick is made of the choicest White Burly grown—the tastiest, mellowest leaf for chewing.

A trial of Penn's Thick will open your eyes to real chewing enjoyment. The guarantee protects you. Penn's Thick must entirely satisfy you, or your money back. Your dealer has Penn's Thick in 10c cuts—try it to-day.

**Doctor Says Nuxated Iron Will Increase Strength of Delicate People 200 % in Ten Days**

In many instances—Persons have suffered untold agony for years doctoring for nervous weakness, stomach, liver or kidney disease, or some other ailment when their real trouble was lack of iron in the blood—How to tell.

New York, N. Y.—In a recent discourse Dr. E. Sauer, a Specialist who has studied widely both in this country and Europe, said: If you want to make an actual change on all people who are ill you would probably be greatly astonished at the exceedingly large number who lack iron and who are ill for no other reason than the lack of iron. The moment iron is supplied all their multitude of dangerous symptoms disappear. Without iron the blood at once loses the power to change food into living tissue and therefore nothing you eat does you any good; you don't get the strength out of it. Your food merely passes through your system like corn through a mill with the rollers so wide apart that the mill can't grind. As a result of this continuous blood and nerve starvation, people become generally weakened, nervous and all run down and frequently develop all sorts of conditions. One of the most common is indigestion with unhealthy fat; some are so weak they can hardly walk; some think they have dyspepsia, kidney or liver trouble; some can't sleep at night; others are sleepy and tired all day; some suffer with irritability; some are thin and bloodless, but all lack physical power and endurance. In such cases it is worse than foolishness to take stimulating medicines or narcotic drugs, which only whip up your flagging vital powers for the moment, maybe at the expense of your life later on. No matter what any one tells you, if you are not strong and well you owe it to yourself to make the following test. See how long you can work or how far you can walk without becoming tired.

NOTE—The manufacturers of Nuxated Iron have such unbounded confidence in its potency that they authorize the announcement that they will forfeit \$100.00 to any charitable institution if they cannot take any man or woman under sixty who lacks iron and increase their strength 200 per cent or over in four weeks' time, provided they have no serious organic trouble. Also they will refund your money in any case in which Nuxated Iron does not at least double your strength in ten days' time. It is dispensed in this city by Rowley Drug Co. and all other druggists.

**BOOSTER BODY NOW PLANNED AT OLIVE**

**Funeral of Baby Scalded to Death Is Being Planned Today**

OLIVE, Dec. 6.—The people of Olive are considering the formation of an Improvement Association and a meeting has been called at the Olive hall for Thursday evening, December 14, at which some action will doubtless be taken.

Occupying the position of the Gate City of Orange county, standing at the mouth of the Santa Ana canyon, Olive people properly believe that the town can be developed if enthusiasm and energy are brought to the task. There are numerous projects which arise from time to time, in which such an association could be used to the advantage of the town. In the building of roads and bridges by the county, such an association could do much to protect the interests of the district.

It has been announced by the Santa Fe that a new depot will be built at Olive next year. There has been considerable development in building during the past few years; and many believe that the time is ripe now to form a live civic organization to help in keeping the good work going.

**L. A. HARBOR POTASH PLANT OPENING HALTS**

LOS ANGELES HARBOR, Dec. 6.—The American Trona Corporation has indefinitely postponed the opening of its potash refining plant here on account of the demand for raw material produced at the Searles Lake plant of the company in the Owens Valley.

Construction work on the plant here has been suspended and the entire force of the company transferred to the desert, where facilities for shipping the raw product have been increased.

The plans of the company are to ship the raw product to the seaboard plant, but the present demand for potash for munitions and other purposes is so great that the company is able to dispose of its entire product at high prices without refining it.

**SUGAR DROPS**

## CONTINUE U. S. WAR INSURANCE URGES M'ADOO

WASHINGTON, Dec. 6.—An earnest recommendation for the extension for another year of the bureau of war risk insurance, which expires by limitation December 2, 1917, is made in the annual report of the secretary of the treasury, McAdoo, submitted to Congress today.

Gold coin and bullion to the amount of \$2,700,136,976 was held in the United States November 19, 1916. The report shows "the largest stock of gold ever held in this or any country of the world."

The bureau of war risk insurance had written, up to November 17, a total of 1,684 policies covering a total insurance of \$163,395,687, says the report, and the surplus premium paid over losses amounting to \$2,367,657.23. The losses to date have amounted to \$833,924.60, from which salvage of

\$59,055.87 has been received. The net amount of insurance at risk November 17 was \$14,610,345. While \$100,000 was appropriated for the bureau under the original act, the operating expenses have amounted to but \$39,113.70. Unless the bureau is continued, says the report, and the war in Europe continues after the date of expiration, the inability to grant war risk insurance on American vessels and cargoes in American vessels will seriously injure the business and commerce of the country.

**Lauds Federal Reserve**  
High tribute is paid to the value of the federal reserve system, the report saying our great prosperity could not exist without it.

Under the new system created by the federal farm loan act, says the report, the farm credits, the farming industry and the farmer will receive inestimable benefits.

Referring to the Pan-American financial congress which meets in Washington in 1917, the secretary says:

"I cannot overestimate the value of these conferences in bringing about a better understanding and promoting in this practical manner friendly relations and enlarging trade and commerce with our southern neighbors."

There are several serious defects in the Harrison narcotic law, which has been in effect sixteen months, in the opinion of Secretary McAdoo, and there is urgent need for remedial legislation. A congressional appropriation is urged for repayment of fines by parties convicted under section 8, which was deprived of effectiveness by a decision of the supreme court.

**Urges Drug War**

Treatment by the government of persons addicted to the use of drugs is also recommended. The secretary recommends appropriation for a vigorous scientific study of infantile paralysis by the public health service as a preventative of further epidemics.

The secretary again expresses conviction that the omnibus bill method of construction of public buildings pursued by the government for the past fifteen years has resulted in the construction of many public buildings in small towns and localities where their need is not justified by the cost of requirements. He urges divorcing of this question from all local or political considerations and separate measures to cover each building after proper investigation. A new Coast guard cutter is recommended for the Hatteras district. An increase in the rate of pay for the enlisted men in the service, says the report, is imperative. Funds for the extension of the aviation branch of the service are asked by the present Congress. Exports for the year ending June 30 amounted to \$4,333,658,865, an increase of \$2,768,589,340 over the previous year.

Imports amount to \$2,179,883,510, an increase of \$484,000,000. Customs receipts totaled \$213,185,845.63, showing a healthy receipt.

**CHICAGO DENTISTS IN MIDST OF PREPARING KIDS' XMAS TOOFIES**  
CHICAGO, Dec. 5.—Dental surgeons and their underlings are swamped by school children whose toofies are to be prepared against the impending ravages of Christmas candy. This week is "dental week" and parents were urged by Mayor Thompson to take their children to clinics for treatment.

**ENFORCED QUARANTINE**  
EL CENTRO, Dec. 5.—The town of Glamis, Cal., northeast of here was isolated when the Imperial County health officers, with three automobile loads of deputies, enforced a quarantine with shotguns and ordered the Southern Pacific station agent not to allow incoming or outgoing trains to take on or discharge passengers. The action was taken when it was learned one man was dead and four were dying in the Mexican quarter from smallpox.

**SUGAR YIELD HEAVY**  
OXNARD, Dec. 5.—Having manufactured 1,150,000 bags of sugar, about 250,000 more than any previous season, the American Beet Sugar Company's factory here closed for the season Friday night. The increased production is due partly to the unusually high percentage of sugar in this year's beets and to the increased acreage, particularly in the San Fernando Valley.

Black calf, English bal ... \$4.50 to \$7.00  
A Special Walk-Over Gift Shoe at ..... \$4.50 or \$5.00

## FRIDAY MUSICAL TUSTIN P. T. A. PLAN

Mesdames Gehrett and Padgham of Santa Ana to Give Program

TUSTIN, Dec. 6.—On Friday afternoon at 3 o'clock the Tustin Parent-Teacher Association is planning to give all the parents and friends of the pupils a musical treat in connection with the regular meeting of the association.

Mrs. A. J. Padgham and Mrs. Margaret Gehrett of Santa Ana have consented to give a special musical program.

Many people here are well acquainted with the ability of these two ladies to entertain delightfully, and therefore an unusually large attendance is expected.

The question box is also to be made a feature of the meeting and all those who have questions to ask are requested to bring them.

**Give Thanksgiving Supper**  
The friendly interchange of hospitality that marks the social life of the Tustin Knights of Pythias and Pythian Sisters was in evidence Saturday night when the Knights entertained their families at a turkey supper in the large basement hall of the school-house.

No less than 150 were served at a long table spread with many good things. Deliciously roasted turkey was there in abundance and its accompaniment of seasoned dressing and gravy and there was cranberry sauce, salads, olives and celery, mashed potatoes, pumpkin pie and mince pie and jelly of the finest.

This annual getting together at Thanksgiving time serves to promote the good fellowship prevailing among the families of the Tustin lodge.

After the supper, all those who love to dance repaired to K. P. hall, where they continued to enjoy themselves tripping the light fantastic toe.

**Plan Annual Bazaar**  
The Ladies Aid Society of the Presbyterian church is going to hold its annual fall bazaar and supper Friday evening in the school house basement. These artists in the culinary art are putting their ideas together now and the result will be one of those delicious suppers for which they are famous.

A fine display of fancy and useful articles will be displayed for the convenience of purchasers.

**Attend Conference**  
Last Friday afternoon a party of Tustin Y. M. C. A. members were taken to Pasadena by W. L. Leiby in his automobile to attend the Older Boys' conference in that city. Mr. Leiby returned the same night, but W. A. Jones, Albert Thorman, Ernest Saunby, Howard Marple and Paul Jones remained until Sunday evening and were delightfully entertained while attending the sessions of the conference. The program was highly instructive and interesting to the boys and between times they enjoyed a tour of the beautiful city of Pasadena and hospitable entertainment.

**GERARD SAILS TODAY; TO CONVEY AMERICAN VIEWS TO GERMANY**

NEW YORK, Dec. 5.—Ambassador James W. Gerard today sailed on the steamer *Frederick VIII.*, to resume his duties at Berlin, leaving President Wilson determined to pursue the same course as in the past toward Germany.

The ambassador carried with him a clear summary of this government's attitude on all questions now pending between Germany and the United States, gained in conferences with the President in the first talks he has had with the President since the war began.

While here the ambassador assured those with whom he talked that the danger of certain radical elements in the empire overthrowing the influence of the German government was trifling.

Before sailing Gerard expressed the belief that many of the belligerent countries—Germany at least—will do all of their buying in their own countries.

"If our peace and prosperity is to continue," he told a group of New York business men, "we must give permission for business men to combine for foreign trade."

The President embodies this same idea in his message to Congress today.

**SUGAR YIELD HEAVY**  
OXNARD, Dec. 5.—Having manufactured 1,150,000 bags of sugar, about 250,000 more than any previous season, the American Beet Sugar Company's factory here closed for the season Friday night. The increased production is due partly to the unusually high percentage of sugar in this year's beets and to the increased acreage, particularly in the San Fernando Valley.

**NAB MEX. SURGEON**  
LOS ANGELES, Dec. 5.—Federal officers today arrested Fortunato Tenorio, a Mexican military surgeon, suspected of recruiting men and shipping ammunition to Lower California.

## ESCONDIDO EGGS JOIN ASSOCIATION

ESCONDIDO, Dec. 6.—The reports of Tom Hurly of Bonsall and Ira Hartley of Escondido, who are making the rounds of the ranchers of Escondido valley in the interests of the proposed Southern California Poultry Association, which seeks to secure stock subscriptions from the owners of 400,000 hens before effecting a permanent organization, go to show that there is a lot of poultry in this locality.

At the end of four days' work the men report the signing up of an ownership of more than 15,000 hens. They have met with gratifying success in the canvass. Men and women owning 100 hens or more are visited by the representatives of the project.

## STOPS HEADACHE, PAIN, NEURALGIA

Don't suffer! Get a dime pack of Dr. James' Headache Powders.

You can clear your head and relieve a dull, splitting or violent throbbing headache in a moment with a Dr. James' Headache Powder. This old-time headache relief acts almost magically. Send some one to the drug store now for a dime package and a few moments after you take a powder you will wonder what became of the headache, neuralgia and pain. Stop suffering—it's needless. Be sure you get what you ask for.
